

Trilo SF150

Cushman, Ryan, Huxley, Kawasaki), it collects leaves, grass cuttings, hollow cores and litter. Easy to mount or take off, it is also easy to adjust to suit conditions and material being collected. The material gathered, having been chopped up and reduced in volume by a six-bladed fan, passes through via a 250mm hose into a rear-mounted aluminium container with a 2 cubic metre capacity. Price is likely to be under £6,000 excl VAT.

DIXON & HOLLIDAY

Dixon & Holliday Ltd will be showing its new Alpina VIP42 knapsack brushcutter which can be operated for extended periods on power demanding operations. Powered by a 41cc two-stroke motor made by Alpina, the unit has a well padded frame with wide straps which have a quick release clip for ease of putting on and taking off. The machine, which can be used right or left handed, has a 1.5ltr (2.7pint) fuel tank, diaphragm carburettor, priming bulb and solid state ignition. A wide range of attachments is available for the unit.

H PATTISSON & CO LTD

H Pattison & Co Ltd has more than a new logo and catalogue to show, it also has new products, including the Premier Hole Cup Cutter with 14in heavy-duty blades and a universal Swivel Tube Flag complemented by the same design as a 6D Swivel Putting Flag. Also on show is the colour impregnated solid resin Pear Shaped Tee Marker.

MULTI-CORE AERATORS LTD

Aeration equipment specialists Multi-Core will be showing its full range – two tractor mounted and two pedestrian operated

machines. The TM1500 1.5m wide tractor is robust enough to handle greens and fairways alike. It is fully sealed and boasts productivity of 67,000sqft per hour. For the customer with a smaller tractor, there is the TM1000, a machine bought recently by Colin Urvin of Dussendorfer GC, Ratingen, Germany. He is pictured below taking delivery of the first machine sold to Europe by Multi-Core from managing director Ian Waddington. A variety of different heads and tines will also be on display.

LLOYDS

Lloyds will be using Saltex to launch its motor triple mower, the Lloyds Elite. This is a general purpose highway and verge mower available with either 4, 6 or 9 bladed cutting units. Also being launched is the Leda Hydraulic 7 Mower Trailer which is basically the big brother of the current Leda Hydraulic 5 Mower Trailer. These will be exhibited alongside the 24in version of the Paladin Fine Turf Mower launched earlier this year.

TURF MACHINERY LTD

The show marks the debut of the Maruyama range of professional trimmers and brushcutters from

Turf Machinery Ltd. The range encompasses models with engine capacities from 20cc up to 42cc. Cutting heads include a choice of auto-feed or standard two-line nylon monofilament units as well as bracken and saw blades. Also on show will be Maruyama's Multi-Cutter machine comprising a base 26cc engine unit with a range of specialist attachments including trimmer, edger, hedge-cutter, tiller and chainsaw.

BARENBRUG

Part of the Barenbrug display on stand K13/14 at Saltex will be the best all bent overseeding mixture available in the UK, claims Barenbrug, and appropriately called Bar All Bent. Intended for greens and ornamental lawns, the mixture is 50/50 Heriot and Bardot, top Browntop bents with improved compactness, disease resistance and slow growth.

Of a more robust nature will be Bar 7, a heavy duty sports mixture favoured by Premier Division football clubs such as Everton and Sheffield Wednesday, rugby

clubs the likes of Cardiff Arms Park and even cricket squares. Made up from three high quality dwarf perennial ryegrasses – Barclay, Barlow and Barrage 50/15/35 – Bar 7 will provide the smallest local club, on a far more modest budget, with a superb playing surface exhibiting outstanding wear qualities from a finer, denser sward with lower cutting requirements.

GARFITTS INTERNATIONAL

New from Garfitts International will be a range of complete replacement cutting and scarifying units suitable for fitting to Toro, Jacobsen and Ransomes mowers. The units are built to the same exacting standards as Garfitts' individual cylinders, bed knives, rotary blades and other components, says the firm. Also new is the range of Draper workshop tools and accessories and a selection of safety equipment and protective clothing.

FARMURA

Farmura will be displaying its full

which makes the Nikken Knapsack the ideal machine for every golf course

The unique **Hover Hood** gives the operator freedom and manoeuvrability to cut steep banks quickly and easily. Knapsack design gives him the freedom and balance to mow even the most difficult banks.

With the hood removed and the blade changed the machine quickly becomes an efficient edge trimmer.

Knapsack design effectively removes the engine from flying sand so eliminates a major cause of wear and breakdown.

The Jupiter grinder from Eric Hunter

range of environmentally sensitive management products. Of particular interest will be the advanced range of Super Concentrate fertilisers and the improved Turf Irons fitted with rubber rollers for increased grip in damp conditions. Also on show will be

the range of Farmura Liquid Organic Fertilisers, Ferrosol, Blazon and Superpaver Grass Reinforcement.

ERIC HUNTER GRINDERS

The staff at Eric Hunter Grinders will show you how to grind

mower cylinders correctly. They point out that there is a world of difference between grinding and sharpening. They say their machines are designed to accurately grind a 'relief angle' to each blade rather than grind the high back part of the cylinder blade level with the front edge, which leaves a radiused curve or 'flat' top to each blade. Their machines remove the back part of each blade completely, leaving a perfect cutting edge so there is no longer any friction against the bed-knife. The claimed results are a cleaner cut, much longer bed-knife life, lower fuel bills, less adjustment, longer engine and transmission life, no back-lapping and far fewer problems throughout the cutting season.

RANSOMES

Three new products and a number of improvements to other machines are to be unveiled by Ransomes. Making its public debut in Britain will be the Ransomes E-Plex triple greens mower, an all-electric machine

featuring very quiet, pollution-free and economical operation thanks to the use of a battery powerpack and electric drive motors in place of the normal engine, hydrostatic transmission and hydraulic system. Eight 6-volt batteries give the Ransomes E-Plex sufficient mowing capacity for a minimum of nine greens. Standard features include three 22in (559mm) steerable floating mowing heads available with nine or 11 blades, fingertip operating controls and a single foot pedal for mowing speed control. Also new will be the Ransomes 7 series range of ride-on, out-front rotary mowers and a low-cost 'Junior' version of its Cushman Turf Truckster.

NATURE FIRST

Nature First, a leading supplier of semi and mature trees, will be there to discuss its stocks and its fleet of modern tree spades.

VITAX

Two new products will be launched at Saltext by Vitax.

Heriot & Bardot

Favourite bentgrasses for fine, close grown turf outscore the usual.

Although 'Highland' browntop bent is generally acceptable for most UK situations, for very fine turf such as golf and bowling greens Barenbrug advises finer and denser cultivars like Heriot and Bardot.

TOP-DRESS SUPPLIES

Fine 'X', a quality powder compound spring and summer fertiliser for all fine turf areas now has the added benefit of containing a high quality seaweed providing a range of trace elements and acting as a natural soil and turf tonic.

The other product whose name will be announced at the show is a water storage granule that is over 30 times faster absorbing water and over 40% more absorbent than comparable products on the UK market, claims Vitax.

SOVEREIGN TURF

Sovereign Turf Ltd have been producing high-quality turf for professional landscapers, local authorities and sports clubs since 1987. Top rated STRI cultivars, light, sandy soil and innovative management techniques ensure that Sovereign turf is of a consistently high quality and available all year round. During the past two years a network of distribution agents has been built up which ensures that cus-

tomers receive prompt, professional and personal service throughout East Anglia, London and the South East. All grades of turf are harvested in standard 1 sq yd or jumbo 25 sq yd rolls with a supply and lay service also available.

ATTERTON & ELLIS

Two new grinding machines will be unveiled on the Atterton & Ellis Ltd stand. The Express Dual 1000 and Express Dual 2000 allow cylinders to be sharpened 'in-situ', in the normal grass-cutting position, without dismantling the unit, but they also have the ability to grind the cylinder separately when the mower is stripped down. The 2000 also features a relief grinding attachment, allowing greenkeepers who so wish to grind a relief off the back of the cutting edge of the cylinder, and an electric drive lifting table. Also on show will be a range of Atterton Anglemaster bottom blade grinders.

OCMIS IRRIGATION

Ocmis are irrigation experts with a referral driven reputation in problem solving, system design, manufacture and supply, installation and servicing to the golf, sports turf, agriculture and water industries.

Their aim is to promote improved performance and better long term value to the golfing industry. In short, efficient watering systems built to last from the outset and a maintenance and refurbishment facility to provide a reliable lifetime expectancy.

THE DEEP DRILL SERVICE FOR SPORTS TURF

Why suffer turf problems associated with compacted soil?

Our Deep Drill machine will create a pattern of sixty 5/8" holes, up to 10" deep, on a 5" spacing, in one movement, leaving an unmarred surface.

RESULTS IN ● Relief of compaction ● Improved aeration and percolation of water to the root zone ● Deeper, wider and more vigorous root development ● Holes offer a way of introducing fresh media to the soil ● Healing time of three to four days ● Drills through dry patch.

SALTEX PREVIEW

They manufacture packaged pump stations, control panels and manifold assemblies. They are national stockists of all types of pressure pipe, fittings and valves, sprinklers, mobile irrigators, pump units, pressure vessels, control panels, electric cable and accessories.

KUBOTA

Kubota will be showing a wide range of compact tractors including its latest, the 29hp ST-30. Other tractors include units from the B50 series and the larger L series as well as the 16hp B7100 compact model which now incorporates hydrostatic transmission. The latest Kubota ride-on mowers will also be available for viewing, including the front mounted rotary 18hp F1900 model and the 18hp G1900 which features four-wheel steer. Portable generators, pumps, a range of walk-behind mowers, brushcutters and hedge trimmers complete the line-up.

MOMMERSTEEG

Mommersteeg offer grass seed

For maximum operator comfort, the Kubota 29.1 (DIN) hp ST-30 compact tractor has been designed to keep engine noise and tractor vibration to a minimum

mixtures for every possible use. Their new range of turf mixtures will be on display throughout Saltext. These are suitable for a

wide range of sport, amenity and landscape uses. And experienced technical staff will be on hand to discuss your potential needs.

BARLOW TYRIE

Barlow Tyrie is one of the UK's leading manufacturers of fine teakwood outdoor furniture, a selection of which is being displayed at Saltext. The comprehensive range includes armchairs, seats, benches, recliners, loungers, tables, tree seats and corner seats. All are fashioned from the highest grade plantation-grown Java teak (*Tectona grandis*, the only genuine teak).

The classic lines of Barlow Tyrie furniture has resulted in their being specified by designers and landscapers worldwide. It is to be found at such august establishments as the British Museum, the Museum d'Orsay, Paris; the Barcelona Olympic village, Spain and Wentworth Golf Club.

YOU'RE ONTO A WINNER WITH GREENKEEPER INTERNATIONAL

Find three tiny £50 notes - win a real one, for free!

HERE WE GO with another chance to WIN £50 with Greenkeeper International!

All you have to do is take a look at the £50 note symbol above. Now look through the ads in the Buyers' Guide section and spot THREE of them - they've been reduced in size, but they're there, somewhere!

Write down the names of the three ads where the £50 notes are located and send your entries on a postcard to: **Note the Notes Competition, BIGGA, Aldwark Manor, Aldwark, Alne, York, North Yorkshire YO6 2NF**, to be received by first post Friday, August 26, 1994. The first correct entry drawn after that date will win £50. It could be YOU! Enter today - and Note the Notes!

Judges' decision is final. Not open to BIGGA staff.

★ The greenkeeper with an eye for detail last month was Mr R N Maltby, course manager of Wheatley Golf Club who scoops the cash prize of a very nice £50. Will it be your turn for success next month? Get searching - note the notes and be a winner with Greenkeeper International!
