

The Fairway Champions

There's no contest when it comes to choosing the right weight mower for golf course fairways. Look to Ransomes' corner for a choice of Fairway champions which can out-perform, out-power, out-produce and out-manoeuve any mower in their weight class.

First there's the new lightweight Fairway 250 with 23, 28 and 33 horsepower or the midweight Fairway 300

with a 38 horsepower engine. 4-wheel drive is standard except on 23hp model. Floating head cutting units closely hug

the turf and rugged hydrostatic drive grips the terrain for an unsurpassed punch to tackle inclines or mow around obstacles, with even weight distribution to eliminate "bouncing" for a smooth, clean finish.

Before you put your money on any Fairway mower give the 300 and 250 a work-out. They're the mowers that have the right weight for a winning performance on the fairway.
