

Hardi makes every drop count

Selecting the best spray chemicals for your turf is one thing, applying them with the required accuracy is another.

That's why at Hardi we don't measure the performances of our spraying equipment solely in terms of tank capacity, nozzle output and bar pressure. We measure it in your terms.

Uniform coverage, speed of application and effective results.

For example, we know that your individual requirements, in terms of chemical choice, climate, terrain and turf condition, are unique.
