The PGA European Tour Courses recommend Greenmaster for golf ...

The Greenmaster® range of fine turf fertilisers has been accorded the unique distinction of being recommended by the PGA European Tour Course. This recognition is the result of the product's quality and constant performance when used on PGA European Tour Courses over several years. They recognise that the free flowing, lightweight granules ensure uniform turf coverage and quickly penetrate the sward leaving a clean finish, balanced turf growth and vibrant colour.

... we also recommend it for cricket, bowls and lawn tennis too.

Due to the consistent granule size all Greenmaster products are easy to apply with most types of mechanical spreader and the light coloured granules help avoid overlapped or missed areas. Giving you the best results and helping to reduce the risk of scorch or tide marks.

So if you want a superior playing surface that really shows it's cared for, just ask the man from Levington, our technical advisor, on 01473 830492.
