

No matter  
what condition  
your course is in,  
you'll be judged by the  
quality of the greens.  
That's reality.

Ransomes®  
Greens Mowers.

Right or wrong, your reputation rides on your greens. And there's nothing that can make a bigger difference on the putting surface than a mower that will consistently deliver the high-quality cut you're after. Proper weight distribution, accuracy between heads and ease of control are just a few of the reasons that Ransomes® greens mowers have built a reputation that is unequalled on golf courses around the world. Add the perfectly balanced Greens Super 55, the ultra-precise Greensplex™ 160 and the proven, all-electric E-Plex™ to your fleet of equipment. Because in a world where you're known for your finish, you should finish with the best.

# Furniture and fittings

The Links Leisure course markers can be produced in either a standard or tailor-made range of styles and designs

use. Several stock ink colours are available, or you can specify any Pantone (PMS) colour.

Standard Golf also produces solid bronze signage in a variety of designs which can be customised to your needs. They can be used as distance markers, as tee signs, or for commemorative purposes or as memorials.

Encompassing the need to be both informative and, at the same time, add to the aesthetics

of the golf course, a new range of **PRO-TEE** course markers can be produced in either a standard or tailor-made range of styles and designs.

Produced by the Shropshire-based golf equipment specialist, Links Leisure, the new markers are manufactured from weather-proof glass reinforced cement, they are said to be durable and maintenance-free, and they can be finished in a choice of colours.

Apart from offering a standard range of attractive marker styles and shapes into which club names, motifs, and other details, and sponsor plates can be incorporated Links Leisure can also recreate tailor-made designs to suit individual club requirements.

Both the standard or individual markers can be either permanently installed on metal posts shaped GRC bases.

Full details on the new course marker range can be obtained direct from Links Leisure Limited, Unit 22, Civic Industrial Park, Whitchurch, Shropshire SY13 1TT Tel; 01948 663002 Fax: 01948 666381.

**Pattissons** is acknowledged as the one-stop-shop for all course furnishings. From the tee area Pattissons range starts with the simple Trio Tee Marker to its ever popular resin tee markers, available in Deluxe Golf ball, Standard Golf ball, Pearshaped (pictured left) and Cone Shaped styles. As an alternative, Chichester or Newbury Tee Consoles come complete with a sign that can show all the hole information and layout, D-shaped litter bins, shoe brushes and scrapers, ball washers, ball towels, sponsorship plates, in fact nearly any specialist requirements can be met. As with the consoles, many Pattissons products can be made

to the courses unique specification to maintain a consistency of style.

Another attractive tee accessory is the Deluxe Info Panel, this is a multi panel sign made from extruded aluminium and polyester powder coated in the colour of your choice, once again it can be made to the courses specification and can include, course logo, sponsor plates, yardage information and hole layout. This unit can also be removed for grass cutting and ground maintenance.

Pattisson can supply virtually any accessory a course will need from the tee to the green. The 1996 centenary catalogue containing all of the new and improved course products is available by phoning 01582-597262.

**Indian Ocean Trading Company** has launched several new designs for the '96 seasons.

Included among these are a selection of dining tables and chairs which would enhance any clubhouse patio and a series of attractive outdoor lighting made out of solid teak and coming in two different heights.

Bulbs are prefitted and standard and all the metal fittings are solid brass for durability.

The standard lights can be surface mounted or supplied with a separate spike for use on a lawn.

Further information can be obtained from Indian Ocean Trading Company, 155-163 Balham Hill, London, SW12 9DJ Tel: 0181 675 4808 Fax: 0181 675 4652.

# Clearing Saw or Brushcutter? It has to be a Stihl!

For optimum performance in Local Authority work, forestry and landscape, whether

your choice is clearing saw or brushcutter, there is only one decision to make — which STIHL.

Stihl, the number one name in chainsaws, also engineer a range of ten powerful, reliable and robust professional brushcutters and clearing saws from 25cc to over 56cc which provide foresters,

contractors or local authority parks departments with the ultimate cutting machine for everything from thinning young stands up to 7cm or more in diameter or clearing tough undergrowth, coarse scrub or matted weeds and grass. If you are

looking for lasting quality, reliability and the full backing of expert service and spares availability the choice can only be STIHL.

For full details of the Stihl range complete the FREEPOST coupon or FREEPHONE 0800 137574 for your FREE copy of the new Stihl 64 page catalogue.

**STIHL**®

Jon Allbutt examines the management of health & safety at work

This is the first of three articles that concentrates on specific areas of risk assessment that directly affects the management of golf courses. This month I will deal with the all important Management Regulations, but first what do we mean by the term risk assessment?

It is a pity that all the hype about the "New Six Pack" of regulations overlooked an important fact, and that is, there is nothing new about risk assessments at all. The decisions we make in our day to day management and also when planning future projects has always involved an element of risk assessment. Discussions like "It might be better (safer) not to use the Allen on the green surrounds to-day, I had a look this morning on the way in and they are a bit soft"; "Can you hand mow the tees to-day, the approach is very wet and I don't think you will get on, and off, (safely) without making a mess".

Greenkeepers are of course a brave lot and we do find situations where, instinctively, you knew it might be 'pushing it a bit' to take a machine on a slope in poor ground conditions, but you try anyway; greenkeepers meet-

# Getting to grips with RISK ASSESSMENT

ings are full of stories about the consequences!

At one of the Management Courses at Aldwark Manor I asked for a show of hands from delegates who had gone on to a

green in the wrong gear, set down the cutters, forgot about the wrong gear, finished the job, raised the cutters and shot off the green at high speed! The show of hands was in the majority!

So risk assessment is nothing new, it is the procedure of carrying out a formal inspection of the site, identifying any hazards (a situation that has the potential to cause harm or injury) and assess-

## Headland Triazone

A time  
to work  
and a  
time to  
play

### The fast and slow release fertilisers

- Matches urea for fast green-up and growth, but then goes on releasing nitrogen over 6-8 weeks
- Widely used in America and now proven in independent UK trials and on sand-based greens
- Lowest scorch risk of any liquid fertilisers and up to 60% less leaching than urea
- Choice of formulations each of which can be intermixed to create a tailor made analysis

Few question the potential of slow release fertilisers to cut costs and save you time. Now the Triazone range makes this dream a reality. Unlike conventional slow release treatments, they contain fast release nitrogen for rapid response. Yet unlike fast release treatments, they go on releasing nitrogen for up to eight weeks - the best of both worlds.

The result is healthy, balanced turf growth, much lower scorch risk and less leaching. And you don't have to take our word for it. Independent ADAS trials proved Triazone out performs other fertilisers for total uptake of nitrogen and sustained greenness.

Contact your Headland distributor or call 01761 410 877 for a product guide.

 **Headland  
Amenity**

Headland Amenity

Ideal on fine turf, pitches and amenity grass

# RISK ASSESSMENT

ing the risk (the likelihood that injury will occur).

The important difference between the traditional approach and now is that we have to be formal about it and record the "significant findings" of the assessment, and then make sure that all involved are informed, and trained so that the risk is reduced, or eliminated by design.

An important part of the process is avoiding the problem by removing the hazard, or making sure that equipment is "fit for the purpose", that is the job it is going to do is considered carefully before purchase. Ideally have the equipment for a demonstration to see if it can do the job.

These principles apply to any risk assessment situation, so what is different about the Management Regulations?

Regulation 3 states:

"(1) Every employer shall make a

A busy course always provides the risk of being hit by a ball

suitable and sufficient assessment of—

(a) the risks to the health and safety of his employees to which are exposed whilst they are at work; and

(b) the risks to the health and safety of persons not in his employment arising out of or in connec-

tion with the conduct by him undertaking, for the purpose of identifying the measures he needs to take to comply with the requirements and prohibitions imposed upon him by or under the relevant statutory provisions". Quite a mouthful, what does it mean?

The employer must undertake a broad look at the workplace and identify hazards to his employees, or any other persons (golfers or the public) who might be affected by the business. There is no need to repeat any other work already carried out, for example, the risk assessment will identify hazardous chemicals, but these should have already been risk assessed under the Control of Substances Hazardous to Health Regulations (COSHH), so no action is necessary if these regulations have adequately reduced the risks.

On a golf course there are no 'Being Hit by Golf Balls Regulations', so under the Management Regulations you identify any areas of the golf course where staff are having problems with being hit by golf balls. Check that the Club has a policy on priority, and that staff and players are adhering to it. This could involve not opening for play until, say, eight o'clock; or on a Pay and Play, Municipal or other course where there is no control over start times it may be necessary to issue guidance to ensure all on the course understand the Club policy. For example the scorecard might have the following note:

"Greenstaff have priority on the course, they will give way whenever practicable. The ball will not be played where greenstaff are within range; please wait until

the way is clear or you are called through".

Such a clear statement makes it quite clear to both parties the Club Policy and serves as a guide to everybody involved. In the event of an accident it will greatly assist the Inspector to decide who was at fault (if anyone). Where 'hot spots' on the course are identified it may be necessary to place notices on tees, provide towers or some other way to ensure players and staff are not at risk.

There are no 'Take Care on Steep Slopes Regulations', so it is necessary to identify slopes, measure the angle, and decide if they are safe all the time, or just when very wet, or very dry. When designing new features on the course make sure you have thoroughly considered how they are to be maintained before construction.

I looked recently at a new tee (designed by the Captain!) on an established course and asked what special type of machine was to be used to cling to its precipitous slopes, the Course Manager answered with a sigh 'we don't know, probably have to use a flymo or strimmer'. Now here is an important point, most risk assessments result in an increase in operational efficiency. Compare the cost of hand mowing, strimming with using modern ride on mowers.

If you take this argument to its extreme we could end up with some very bland, boring golf courses!. So be sensible and make sure you keep in mind that the object of the exercise is to create a safer working environment within the limits of the site, and the needs of the game.

There are no 'Take Care on Steep Slope' regulations

# Buyers' Guide

The most cost-effective way of reaching readers of *Greenkeeper International*. Simply ring Carol Dutton or Louise Lunn on 01347 838581 and ask about an alphabetical category listing: the cost starts from as little as £28 per month.

## Agronomy

### B Jamieson Golf Advisors Ltd

Bruce Jamieson formally Director of Agronomy with the PGA European Tour has now formed the above company offering expert advice on:

## YOU'RE ONTO A WINNER WITH GREENKEEPER INTERNATIONAL

Find three tiny £50 notes – win a real one, for free!

HERE WE GO with another chance to WIN £50 with Greenkeeper International!

All you have to do is take a look at this £50 note symbol. Now look through the ads in the Buyers' Guide section and spot THREE of them – they've been reduced in size, but they're there, somewhere!

Write down the names of the three ads where the £50 notes are located and send your entries on a postcard to: **Note the Notes Competition, BIGGA, Aldwark Manor, Aldwark, Alne, York, North Yorkshire YO6 2NF**, to be received by first post Friday May 17, 1996. The first correct entry drawn after that date will win £50. *It could be YOU! Enter today – and Note the Notes!*

Judges' decision is final. Not open to BIGGA staff.

★ **Lucky winner of last month's competition was W H Griffin, Deputy Head Greenkeeper at Dore and Totley Golf Club. A handy £50 is on its way. Get searching now and YOU could be this month's winner!**
