

Why spray it Blue when
you can spray it Green
with

Indicator

Indicator is the revolutionary new spray pattern dye from Amenity Technology. Rather than highlighting the spray pattern by discolouring turf, Indicator leaves a lush natural looking green tint to the turf; which breaks down in sunlight over 1-2 days.

- Ensures correct applications of pesticides and any spray solution.
- Highlights blocked nozzles.
- Highlights skips and misses.
- Available in water soluble packets or as a liquid.
- An instant, economical way to obtain a temporary green up.

Call us today for details of
your **free** denim shirt.
