

DRENCHER RANGE

The drencher range of WETTING AGENTS offers a formulation for every situation and location. **DRENCHER LIQUID** is one of the markets leading wetting agents, it is not only 100% organic but also has a high content of natural sugars which have been shown to aid in the stimulation of beneficial bacteria. Also available in the range are Drencher **W.A. Pellets** and **Drencher 1-2-3 Pellets** both of which are applied through the **Drencher Gun**, the U.K's leading hose end applicator gun.
