### **ING TURFCARE FINANCE AT SALTEXT**

Think cost, not price when considering whether to use cash or credit to acquire a new item of turf machinery.

That is the advice of Sean Jones, manager of ING Lease's Turf Care Division, which, in addition to providing funding to golf course, contractor and public authority equipment users, operates some of the leading own-brand finance marques in the industry, including Kubota Credit, Toro Finance and Charterhouse Finance.

"At a time when interest rates are at their lowest levels for 30 years, there is a great temptation to think cash instead of credit," commented Mr Jones. "However, larger more specialised machinery rarely pays for itself in its first season. Working life and payback period is usually far longer. It makes economic sense, therefore, to fund the item over the number of years which match actual use rather than pay for it completely before it has earned a penny for you."
