

THE PERFECT SPREAD

The Amtec Fertilizer Spreader Range

SEE BELOW FOR DETAILS

- Straightens leaf blade to increase the speed of greens.
- Raises seed heads to allow 'boxing off', thereby helping to control the spread of Poa Annua in fine turf.
- Reduces the susceptibility to disease.
- Speeds the recovery from ballmarks, and reduces the damage from spike marks.
- Economical and easy to apply.

BUY 2x10 lts of VERTIGO and receive a FREE Lambswool JUMPER

MARK IT Aerosols Paint Range

The MARK It! range of Aerosol paints offer high quality line marking paints in 750ml cans. MARK It! is ideal for use on hard surfaces and also on turf. MARK It! aerosols come with a "no quibble" guarantee not to block. MARK It! aerosols are available in White, Yellow, Red and Blue.

IRONS

IRONplex Xtra

Is a unique 100% chelated liquid Iron. The fully chelated Iron in IRONplex Xtra is readily available for uptake by the plant providing a rapid greenup, which is evident for weeks. IRONplex Xtra is ideal for the treatment of turf throughout the year, even in colder periods and will help to strengthen turf from disease and frost.

WHEELY MARK It! 2 & 4

WHEELY MARK It! 2 & 4 is the ideal two and four wheeled applicator for MARK It! aerosol paints.
