

IT'S HERE!

NEW

The world's only Greens Maintenance Cassette System for triple mowers!

Imagine being able to carry out almost any greens maintenance task with all the speed and ease that your greens triple gives you.

Now you can!

The amazing NEW Thatch-Away SUPA-SYSTEM is a totally unique concept. These revolutionary multi-purpose units will operate 8 different types of cassettes to handle all those jobs you never had time for before.

Just undo the latches, and the Thatch-Away SUPA-SYSTEM's patent pending chassis swings open allowing you to change cassettes in just seconds! Your greensmower has instantly become capable of not just mowing and verticutting, but also Scarifying, Grooming, Sweeping, Brushing-in Topdressing, Spiking and Slitting.

40-41 Golf Courses in Front Line Defence of Heathland Heritage

Anyone who doubts the importance of golf courses in the fight to preserve our natural heritage should consider the plight of one plant - 'heather'. Carol Dutton reports.

Welcome

FROM STRENGTH TO STRENGTH

Well there we are, Harrogate has come and gone and we can look back on another week when the greenkeeping profession did itself proud.

From the Sunday afternoon, when delegates began to arrive for the National Education Conference, supported by the John Deere Team Championship, to the Thursday evening banquet when The Counterfeit Stones entertained everyone so royally, no-one could have anything but praise for the professionalism on display.

It has become almost commonplace to announce record attendance figures for BTME so you won't be surprised to hear that once again we had added to the numbers we announced last year. But the degree by which last year's totals were bettered augers well for the long term development of both BTME and ClubHouse, which made its Harrogate debut this year.

Over 5,500 people visited the Shows over the three days and, with many of those staying for more than one day, the overall attendance figure for the three days was well over 10,000. Last year we had just over 8,500, so that's a good measure of development.

But perhaps more importantly than the pure attendance stats were the comments from a large number of exhibitors about the level of business they had done during the week.

It would appear that, more than ever before, people were visiting the show with a view to placing orders, rather than merely investigating potential purchases. Exhibiting at Shows is an expensive business nowadays so if companies can look to the number of orders they took during Harrogate week they are more likely to make a decision to return next year, and not only that, perhaps increase the size of their stand.

It might be that the addition of ClubHouse to the mix has a lot to do with that as the people required to make large purchasing decisions may have been together during the week and decisions could be made much more quickly.

That is all good news for BIGGA as the more successful Harrogate can be the more the Association can plough back into the industry. And so it snowballs.

While it was good news just about all the way at Harrogate itself there was some extremely sad news which began to filter through the Halls from west of the Yorkshire town.

Jimmy McDonald MBE, who retired as Royal Lytham and St Annes Head Greenkeeper three years ago died in hospital following a short illness. There can be few men who have prepared a golf course for as many major events as Jimmy McDonald, and few men who have left such a positive impression on the industry they served. He had seen Open Championships, Ryder Cups, Curtis Cups, Senior Opens, Ladies' Opens and Amateur Championships and players in all of those events knew that they would be playing links golf at its best.

His legacy is carried on by the large number of Course Managers and Head Greenkeepers who were given their start by Jimmy and more than anyone, outside of his immediate family, they will miss him.

A full tribute to Jimmy McDonald MBE will appear in next month's magazine.

Scott MacCallum, Editor

ANNUAL CONFERENCE OF THE IOG

This year's annual conference of the IOG at Leicester Hilton Hotel, April 12 -14, covers a wide range of issues reflecting the diverse nature of grounds management.

Among the issues tackled will be the reduction in availability of pesticides under new EU legislation, managing water resources and IOG-funded research into electrokinetic processes in the management of sports turf conducted by the University of Newcastle.

The keynote address will be by David Payne, Director of Investment for Sport England.

Other issues tackled will be grass seed quality, artificial surfaces, multi-sport grounds and facility management, by James Mead of Millfield School, and

the new national stadium at Wembley, explained by Noel Jeffs, the Director of Operations.

On the third day of the conference, Monday, April 14, there is a strong local authority input with a focus on Best Value and contractors, composting waste and managing a local authority pitch improvement project.

Among the visits planned are a study tour to Leicester City FC Walkers Stadium and Leicester Tigers Stadium plus a visit to Loughborough University and the new ECB National Cricket Academy.

For booking information Tel: Charlotte Lambert on 01908 312511 or e-mail: iog(ff)iog.org

RANSOMES JACOBSEN

Thanks to the support of Ransomes Jacobsen BIGGA has produced a Machinery and Work Equipment Training and Assessment Manual which gives guidance to Golf Course Managers and Head Greenkeepers on training, assessment of competence, training providers and on qualifications and an Individual Record of Achievement.

Each Manual will include a disk so that managers will be able to produce Individual Records of Achievement for each member of their staff.

"BIGGA puts greenkeeper training at the top of its list of priorities, believing that training should start as soon as greenkeepers commence employment and that it should continue throughout their careers," explained

BIGGA's Education and Training Manager, Ken Richardson.

"Training in the safe use of golf course machinery is essential, not only to ensure high standards of golf course preparation and maintenance but also to ensure the safety of greenkeepers, golfers and the general public," he added

The Manual complements the recently introduced GTC Machinery Training Wall Chart and it will help to improve Health and Safety on the Golf Course.

Copies of the Manual will be distributed to all Course Manager/Head Greenkeeper members of BIGGA during February.

JOHN DEERE

John Deere dealer Godfreys from Sevenoaks, Kent, has entered a three year preferred supplier agreement with The Royal St George's Golf Club, host club of The 2003 Open Championship. This means John Deere will have supplied course maintenance equipment for three consecutive Opens, in 2001 at Royal Lytham & St Annes, in 2002 at Muirfield and now again in 2003.

Godfreys delivered its first machine to the club last October, a 2500 triple greens mower.

Two further 2500s, a 3235B fairway mower, a 2653A mower for tees & bunker surrounds and a 48hp 4700 compact tractor are also now being delivered. The club will seek to add to its range of John Deere equipment as existing machines need to be updated.

Having conducted extensive trials with John Deere and Godfreys over the past few months, the club has been impressed by the quality and reliability of the machines, as well as the support service offered.

"These factors, alongside John Deere's performance

at major championships, have helped clinch the deal," said John Rolleston, Godfreys dealer principal.

Course Manager, Neil Metcalf, said "We have been most impressed by the reliability of the John Deere machines, their high quality of cut and their adaptability working over our undulating links fairways and greens."

Past Chairman Richard Barker, a guest at the East Anglia Section Turkey Trot and AGM with Section Chairman Steve Millard, the winner of the Ernie Hart Award Peter Howard and Section Secretary Ian Willett. Richard was amazed at the Section's support of the event with 80 attending. To see the results of the Texas Scramble see 'Around the Green'.

Email press releases and new product updates to: scott@bigga.co.uk

DEVON AND CORNWALL SECTION

An impressive turnout of Devon and Cornwall members met at Okehampton Golf Club for the Section's annual Christmas tournament and meal.

Snow greeted the golfers but once they had completed their rounds they were soon warmed by the fine meal and the humour of the Section's resident comedian Tank Sherman.

The occasion also featured the final event administered for the Section by Richard Whyman before he took up his position of Course Manager at Burnham and Berrow Golf Club and the occasion was marked by a presentation to Richard made by Section Chairman, Cary Rawlings.

STRI AWARD

Following an assessment in December the STRI has been awarded the Investors in People Standard.

The formal assessment included a full review of the STRI's planning processes and training and development systems. Very positive feedback highlighted details of good practice within the STRI across the entire range of principles set by the standard.

The Assessor praised the STRI's strong commitment to staff development and its policy of equal opportunities.

"People within the organisation feel that their contribution to the STRI is recognised and that they are valued; during interviews I was told many times that people enjoyed working at STRI"

Dr Gordon McKillop, the Chief Executive, praised all STRI staff for their contributions and sustained commitment over the last few years in working towards achieving the award. He also expressed his considerable gratitude to Linda Howell of Business Link for West Yorkshire for her guidance, support and encouragement throughout the entire process.

SISIS

Jason Briggs, Midlands Territory Manager for SISIS Equipment has been named as "SISIS Territory Manager of the Year".

The annual award is given to the member of the Sales Team who proves his excellence in territory management and shows the biggest improvement in sales.

The photograph shows Jason receiving a cheque from Joint Managing Directors Roger and William Hargreaves.

TERRY BUCHEN TO TEACH AT HARVARD

He has grown-in more than 13 golf courses, consulted on nearly 100 others and worked as the agronomist for the PGA Tour as well as some of the country's top golf and country clubs. Now, Terry Buchen, CGCS, MG, will teach what he has learned over the past three decades to Harvard University students.

Buchen, President of Golf Agronomy International in Williamsburg, Va., will teach at Harvard Design School's Golf Course Design and Development Institute on March 25. He will speak on golf course maintenance costs and how to evaluate a maintenance operating budget in relation to a course's size and how it is designed. Addressing staffing levels, wages and

benefits, equipment and irrigation repairs, utilities, drainage and key items like fertilisers, chemicals, grass seed and sod, Buchen will also present a number of cost-saving tips — something he is well-known for in the golf industry.

"Teaching at Harvard is a unique experience that I look forward to, especially to interact with the Design School students about real-world playing conditioning standards and how design influences golf course maintenance operating costs," said Buchen, who has spoken at regional and national conferences around the country and in Great Britain, where he is a favourite of the British and International Golf Greenkeepers Association.

NEW COMPANY

Bob Cook, previously known for his work with Parkers, spanning over two decades, and then more recently for Farmura, has announced the launch of his new company, T Parker and Sons (Turf Management 2003) Ltd.

Bob stated that the new Parkers has a few similarities to the old company being that it will still be a family run business with himself and his daughter Nickola and that also, as before, Parkers will be providing quality products coupled with efficient and effective service.

The Parkers name was chosen by the partnership because of Bob's close links with the original company and also the already excellent reputation that Parkers has gained.

Bob will be concentrating on Kent and parts of Sussex and Surrey to supply a wide range of products for all your turf care needs.

For sales or more information please contact Bob on 07798 866345 or 01233 642646

VITAX

Vitax has appointed Stephen Millar as the company's new Technical Representative for Scotland.

Stephen, brings 17 years greenkeeping experience to the post, and comes directly from East Boldon Golf Club, in

Tyne and Wear, where he was Course Manager for over five years. He is looking forward to the challenge of selling new products, and those which he has used himself over the years and knows well.

As a married man with three children, Stephen is also looking forward to settling back into his hometown of Forfar, near Dundee for good.

"I was born here, my family are here, and I trained at Forfar Golf Club before taking my first professional greenkeeping post at Hartsbourne Country Club in London," he explained

"I've been back and forth from England to Scotland ever since, and now, with responsibility for the whole of Scotland I have the chance to travel in my own country."

Clive Williams, Sales and Amenity Manager for Vitax said that Stephen's greenkeeping background coupled with his strong, regional roots made him the ideal candidate to develop the company's interests in Scotland.

ROLAWN

Davina Turner has been promoted to the position of Distribution Manager. Davina joined the company in January 2001 and has successfully worked towards increasing efficiency while building a more flexible and customer friendly operation.

Phil Cuthbert, Rolawn's Distribution Director said, "We can maintain and build on our success only by meeting the challenge of providing excellence in customer service. Doing so against a background of increased volumes and new transport legislation has created the need for change within Rolawn's Distribution Department. As Distribution Manager, Davina's role will be paramount in driving forward the future development of the company's logistics strategy."

MYERSCOUGH COLLEGE

Myerscough College has launched Myerscough Turf Management (MTM) a complete advisory and consultancy service to the Sports Turf Industry.

The service will build on the expertise built up at Myerscough through some 20 years of

education and training in sportsturf. A wide range of skills and knowledge will be utilised, complemented by the superb range of specialist sportsturf equipment at the College's Turf Technology Unit. Allied to this will be the College's extensive mix of facilities ranging from state-of-the-art information technology equipment to fully-equipped laboratories for analytical purposes.

Wayne Roberts, of Myerscough Sportsturf, who will lead the new service, commented, "This is an opportunity to develop existing and new relationships with members of the industry, by providing a complete 'one-stop' service for all sportsturf surface

requirements from introductory training through to research and development."

Wayne adds, "This work will complement our existing educational provision and allow us to deal effectively with the ever increasing demands made of us for this type of service which we have previously only been able to resolve on an ad hoc basis. We see our service as complementary to those already existing in the industry, within which we have established numerous commercial links."

The 'one-stop shop' approach will allow agronomy-based visits and on-site testing where existing work practices, maintenance regimes and good practice can be developed and enhanced, fully supported by laboratory and analytical services where required.

For further information on Myerscough Turf Management, contact Wayne Roberts on: 01995 642447/642222 or e-mail: wroberts@myerscough.ac.uk.

TURFTRAX

TurfTrax, is hosting a number of regional workshops to provide baseline solutions to solve turf troubles.

The events, to be held throughout March, at venues between Cheltenham and York, are for all those involved in sportspitch and golf course management and the renovation decision-making chain, from senior club or local authority managers, to greenkeepers.

"We estimate that the UK sports industry from school playground level to the Premier League loses between £600-800 million every year as a result of poor playability or postponements," says TurfTrax Managing Director, Justin Smith.

"However, most of this could be avoided through simple planning and adopting scientifically sound, remediation and management practices, which in many cases need not cost a fortune.

"There simply is no reason why sports turf shouldn't be able to cope with extremes of weather. Anyone who is experiencing problems at present needs to re-examine their pitch or course construction, or drainage system."

TurfTrax is hosting the six free regional workshops to present those facing up to the problems of poor playability with some answers. They will identify what are the top-ten turf-troubles and provide some simple solutions to avoid these recurring.

They will also help decision-makers draw up a simple strategy to follow when sourcing contractors and agreeing specifications for remediation or reconstruction. Finally, it will give delegates a chance to air and discuss their own problems with TurfTrax's consultative team.

The workshops, which start at 9.30 and finish with lunch, are at:-

Leicester City Football Club	11th March
Haydock Park Racecourse	12th March
Twickenham RFC	17th March
Wyboston, St Neots	19th March
BIGGA HOUSE, York	20th March
Cheltenham Racecourse	25th March

For an invitation, please contact Sarah Mason, on 01234 821750, or e-mail sarah.mason@turftrax.co.uk.

CHARTERHOUSE

Charterhouse Turf Machinery has promoted Nick Darking to Sales Manager. He has many years' experience of the turf machinery industry, and his appointment at Charterhouse comes during a period of strong, ongoing growth for the business.

"One of Nick's first tasks now is to help devise the company's strategy for launching an exciting line-up of new products being introduced early in 2003," says Charterhouse Turf Machinery Director, Philip Threadgold.

"The last 12 months have seen tremendous growth for the company, as more and more turf professionals appreciate the benefits of the high work-rate machinery we offer."

Celebrating their 20th Anniversary this year, Charterhouse Turf Machinery are renowned for having introduced to the UK the Verti-Drain deep aerator, penetrating compacted ground to depths of over 40cm (16in). The product portfolio also includes overseeders, scarifiers, corers, core collectors, pedestrian turf aerators, and drift-free chemical applicators. Most recently, Charterhouse unveiled a new range of powered post hole borers.

In a separate development, Charterhouse Turf Machinery continue to grow their operation in the USA, with Paul Hollis recently having been appointed as Sales Manager of the company's US subsidiary.

ALPHA PLUS GROUNDSCARE

Alpha Plus Groundcare at Inverurie, near Aberdeen, is the latest recruit to John Deere's nationwide grounds care dealer network, covering north and north east Scotland.

The John Deere range of professional and golf & turf equipment will now be sold by Alpha Plus to golf clubs, local authorities and contractors in the area.

The business was established in 1991 by Managing Director, Steve Matthews, primarily to sell facilities management equipment to municipalities throughout Scotland, from its head office in West Lothian.

"The opportunity to take on the John Deere range of machines came at a time when we were looking to expand and set up premises in Aberdeenshire," said Steve.

"The timing couldn't have been better, and we now have the facilities to extend and develop our customer base. Our aim is to become the major supplier of grounds care equipment in the north of Scotland."

Alpha Plus employs about 30 staff between the two premises. An experienced team is responsible for John Deere equipment, sales, parts and services support at the Inverurie site, headed by Dealer Manager Raymond Warrender.

Scottish Region Patrons together with the winners of the 2002 Patrons' Awards at the annual lunch held in Stirling just before Christmas.

After a tiring but successful week in Harrogate, Sami and I are turning out thoughts to Continue to Learn 2004, which will be, again, supported by the John Deere Team Championship. The theme for the Harrogate week will be 'Golf, Sport and Business'. We hope to look back in time and see if things were really better 20 years ago, look at the present and the problems and pressures on the game and on greenkeepers and attempt to look forward to see what changes may occur in the next twenty years. Please let us know if you wish to see a particular speaker or subject.

We had a wide range of speakers at Harrogate in 2003, both greenkeepers and speakers from outside the Industry. We had some excellent talks and I would like to thank all those who took part. The Careers Fair was successful, in its first year, and, thanks to the support of TORO, it will be expanded and enhanced for 2004.

Watch out for further announcements in future editions of this magazine.

Greenkeeper Membership

Following a vote at the Annual General Meeting, held in Harrogate, on January 22, all those wishing to join the Association as Greenkeeper Members, after February 1, 2003, will need a minimum qualification of N/SVQ Level 2 Sportsturf or equivalent qualification. This change to the Constitution will not affect current

members who will retain their current membership category. Anyone wishing to join the Association after February 1, 2003 who does not hold a minimum qualification of N/SVQ Level 2 Sportsturf or equivalent qualification will be offered membership of the Association and will be called Members, i.e. not Greenkeeper Members, until such time as they become qualified.

Non-Greenkeeper, Members will pay a reduced membership fee of £10 less than the equivalent Greenkeeper Member rate. This reflects the lower recommended salaries for unqualified personnel. Additionally, Non Greenkeeper Members will not be given voting rights nor will be allowed to take up office at National, Regional or Section level.

Regional Training

There are still some places left on the Spring Series of Regional Training Courses. However, due to lack of support, we have had to cancel some courses. Courses with places still available are:

The New Supervisor	Newark Golf Club	12 & 13 February
Further Management Skills	Manchester Airport	19 & 20 February
Abrasive Wheels	De Vere Carden Park	26 February
Further Management Skills	Luton Airport	26 & 27 February
Further Computer Skills	Berkhamstead Golf Club	4 & 5 March
Project Management	Ross on Wye Golf Club	5 & 6 March
Presenting a Professional Image	De Vere Carden Park	20 March
Budgets and Finance	De Vere Carden Park	16 & 17 April

Remember that each one day course costs £30 + Vat and each two day course costs £60 + VAT thanks to massive subsidies from the BIGGA Education and Development Fund. All Golden Key contributors also have Training Vouchers, which they issue to their customers. As each training voucher is worth £30 + VAT, you could get your training free of charge.

Courses cancelled due to insufficient numbers are:

Basic Computer Skills	Old Fold Manor Golf Club	19 & 20 February
Coaching Skills	Potters Bar Golf Club	6 & 7 March
Basic Computer Skills	Southerndown Golf Club	18 & 19 March

BIGGA Golf Environment Competition

I have just been informed of the excellent news that two companies have agreed to sponsor the BIGGA Golf Environment Competition 2003. Following the announcement by the R&A to continue to support the Competition in 2003, Scotts UK Professional and Syngenta Professional Products have agreed, jointly, to sponsor the Competition, initially for 2003. Further detail of sponsors, sponsorship and detail of the Competition will appear in the March edition of this magazine.

Golf Environment Competition

Machinery and Work Equipment Training and Assessment Manual

Designed to complement the GTC Wall Chart, the Machinery and Work Equipment Assessment and Training Manual will be sent out to all BIGGA Course Managers/Head Greenkeepers, later this month. Sponsored by Ransomes Jacobsen, the Manual has been designed to assist Course Managers/Head Greenkeepers in the training and assessment of their staff and to give each member of staff a full record of training, assessment and competence.

Many Course Managers have already been visited by

Environmental Health Inspectors who have asked to see written records of training, assessment and competence. Be prepared by ensuring that all of your staff are given appropriate training and assessment of competence and that you keep full, written records.

Higher Education Scholarships supported by Ransomes Jacobsen

Several requests for Higher Education Scholarships 2003 have arrived at BIGGA House. Thanks to Ransomes Jacobsen, there are funds available to

support Greenkeeper Members of BIGGA who are about to enter Higher Education (N/SVQ Level 4, HNC, HND, BSc, MSc). The closing date for applications for the academic year starting in October 2003 is 2 June 2003.

TORO Student of the Year Competition

Application forms for the TORO Student of the Year Competition have been sent to all Training Providers. Applications must be returned to BIGGA House by 9 May 2003. Regional Finals will be held in Edinburgh, Manchester, St Albans, Cheltenham and Cambridgeshire during the week commencing 30 June 2003.

Get your entry in now and you could be following Murray Long, the 2002 Winner to the United States in January 2004.

Qualify while you work in Sports Surface Technology

Today, the sports industry is one of the fastest growing industries. It is essential that surfaces on which sports are played remain in outstanding condition. Our flexible training programme addresses the business and technical skills required to achieve the high quality sports facilities of tomorrow:

- Our ten, two week short courses are available individually and provide training in specific areas such as "Sports Surface Playability", "Mechanisation for Sports Surfaces" or "Irrigation and Drainage".
- Successfully complete all ten, together with a research project which can be carried out at your own sports venue and you will be awarded an MSc in Sports Surface Technology. You can take up to five years to complete the course.
- Our MSc in Sports Surface Technology is also available as a one-year full-time course. Apply now for entry in October 2003.

Supported by the Institute of Groundsmanship, British and International Golf Greenkeepers Association and the Football Association as well as other leading professional bodies and industrial organisations. This qualification will enhance your future career and salary prospects.

Bursaries available

Rachael Palmer from Membership Services would like to welcome 36 new members to the Association and asks "do you do it with a debit?"

How well do you know the people who work for the Association?

In this new series we give you a chance to learn a little more about a member of BIGGA's Headquarters staff

Sarah Sowerby

Position:
PA to Executive Director

What does your role involve?
Providing a secretarial service to the Executive Director, organisation and administration of BIGGA Golf Day and National Championship

How long have you worked for the Association?
Five years

Where were you born and brought up?
Ripon, North Yorks

Where did you work before you joined BIGGA?
Yorkshire Television, Leeds

What are your hobbies?
Going to the cinema/theatre; dining at the Drum & Monkey; being amused by my seven nieces/nephews

What is your favourite food?
Paella

What is your favourite film?
In no order: Shrek/Goldfinger/Jaws/The Thomas Crowne Affair

What was the last book you read?
Knots & Crosses by Ian Rankin

Who is your all time hero?
My Mum

What was the best event you've ever attended?
The Wimbledon Championships each and every year I've been (89/98/99/02)

What is your claim to fame? (None not acceptable)
Sitting next to Beppe (from Eastenders) in the theatre while watching Madonna in her West End acting debut. After just having seen Tom Cruise and other celebs arrive for the premiere of Minority Report in Leicester Square. (Maybe I should be working for Hello!)

Changes to the Direct Debit Scheme

Due to problems with our normal supplier we have decided to administer the direct debit scheme ourselves. Implementing these changes has made the scheme both more flexible and cheaper for you, the member. You now have the choice of paying your membership in either 5 equal instalments or 10 equal instalments which is a change for the better from the previous scheme. If you would like to pay for your membership by direct debit this year then please contact Membership Services and we will send you a direct debit form which needs to be completed.

INFORMATION FOR EXISTING DIRECT DEBIT PAYERS

If you are already paying for membership by direct debit we will be contacting you when your membership is due for renewal with details of how to change over to the new scheme until then your payments will continue to be taken by Premium Credit. If you have questions please do not hesitate to contact me on 01347 833800.

Paying for your own subscription?

Don't forget to apply to the tax office for a refund of 23% of your subscription amount. To claim your refund all you need to do is give either Rachael or Gemma a call for a claim form on 01347 833800. It's really quick and easy to fill in then just pop in the post to your local tax office. Don't delay - do it today, after all it's money with your name on it! For example if you are a Head Greenkeeper you will be entitled to a refund of over £20. An Assistant Greenkeeper would be looking at over £12 which would go some way to

paying for a night in the pub at least. You are entitled to this refund because BIGGA is recognised by the Inland Revenue as a legitimate professional body and membership fees to such bodies are eligible for tax relief.

FEBRUARY'S MEMBERSHIP DRAW WINNER

Just introduce one or more new greenkeeping members to BIGGA and your name will be placed into a draw to win a fantastic BIGGA Clock/calculator/calendar and alarm. Our congratulations go to February's winner, Matthew Evans of Whiteleaf Golf Club

Message of the Month Winner

Each month the person who has written the best message on the BIGGA Bulletin Board, which is found on the BIGGA website www.bigga.org.uk, receives one of these FM desktop scan radios.

Our congratulations go to February's winner John Davenport from Turton Golf Club who's message was posted on 18th December 2002 under the 'Talk about Turf' section.
