

Take a closer look...

Heritage moves outwards and upwards within the leaf blade.

Heritage stops the spread of disease that exists prior to spraying.

Lasting residual activity keeps Heritage working longer.

Heritage is absorbed readily into the leaf and moves both systemically and translaminarly.

Heritage protects against fungi invasion by inhibiting spore germination, disease penetration and sporulation.

Heritage moves into emerging leaves that were not present during the initial application.

Turf roots absorb Heritage and move it throughout the plant.

...only Heritage protects from the inside, so your turf looks good on the outside.

The turf fungicide that will control Take-All patch and Fusarium.

- Proven and unparalleled preventative and early curative action
- Enters turfgrass through the leaf, stem and root system
- Protects each and every blade of grass including the roots and new growth
- Low risk environmental and toxicological profile
- For use on all grass species

Now available in 100g packs for treating smaller areas.
