

## Ever seen electricity leak all over the green? Neither have we.

### **The run-all-day, 2500E Hybrid Greens Mower from John Deere**

It's about advanced technology and common sense. The 2500E is a hybrid mower that puts power in its proper place. The diesel engine of the 2500E powers the reels using an alternator. By removing all the hydraulics from the cutting units, we've eliminated 102 potential leak points. And since 90% of all hydraulic leaks occur in and around the reels, the possibility of a leak is extremely remote. Also, the 2500E reels get constant power from the moment of engagement. This in turn leads to a consistent cut, all day long. When you factor in lower sound levels and less fuel consumption, the 2500E makes even more sense. Call your John Deere dealer for a demonstration today. [www.johndeere.co.uk](http://www.johndeere.co.uk)
