

The walking greens mower which adapts to your environment

ECLIPSE™

Jacobsen's new Eclipse series of walking greens mowers are made to adapt to any conditions, wet or dry and to any undulations on your course. An advanced control system takes variability out of the operator equation for a more consistent standard of cut every time. The adjustable cylinder speed means clip rates can be increased giving a better quality of cut and ultimately helping in the quest to achieve faster green speeds.

The Eclipse is available with two inter-changeable power options, either a 4.6 hp Honda petrol engine or an environmentally friendly drop-in battery pack.

If speed is of the essence, call us immediately for a demonstration on 01473 270000.
