

Toro® Reelmaster® 3550-D

Lightweight champion

**The Reelmaster 3550-D,
the lightest fairway mower on the market.**

THE REELMASTER 3550-D
FAIRWAY MOWER

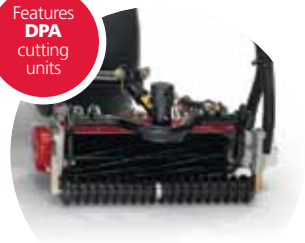

Weighing in at just 900kgs, our Reelmaster 3550-D is the fairway champion of the world.

So, while it makes a big impression – it won't leave one. Because it floats like a butterfly over contours. What's more, it has a productive 2.1m (82ins) cutting width and 7mph (11kmph) mowing speed. With its turf-friendly tyres, the superior traction of a Series/Parallel 3-wheel-drive system, and a powerful 25hp (18.5kW) diesel engine, the RM3550-D is just simply a knockout.
