Welcome to our New Members

GREENKEEPING MANAGEMENT is always happy to tell the world of success stories throughout our profession. And when the need arises we'll not be above a little trumpet-blowing on our own behalf. One such success story is the remarkable growth in our membership over the past few months. With the figure zooming well over the three thousand level and with new members responding positively to the reply card form at the rate of twenty five new members each week, BIGGA is very proud indeed to welcome those new members listed here. To them all we extend the hand of friendship and professionalism - built on a solid foundation of growth and understanding of all that is so good within this fine industry.
