TURF PRODUCERS

Growing high-quality turf takes great skill, knowledge and LOTS OF TIME!

Now you can dramatically reduce that long growth period by using TURF-NET to speed up your turf production. Simply rolled out over newly-seeded ground, TURF-NET intertwines with the growing root system and enables lifting to take place months sooner.

Harvested turf is stronger, lighter and handles better than most non-reinforced turf. Wasteage from breakages is virtually eliminated, much more turf can be produced from the same land and mowing costs are greatly reduced.
