# Better safe.....

**Bigga's selection of Bata safety footwear enables Members and Club Secretaries to put safety first!**  
**Whatever style you choose, you can be sure you will be choosing boots or shoes that are light and comfortable, but giving protection where you need it most.**

**Bata's safety footwear is made to British Standard 1870, part 1, and incorporates a steel toe cap.**

Colour: Brown  
 Sizes 6-11  
 (No half sizes)  
**F100 Rubair Fell Boot**  
**£20.15**

Colour: Brown  
 Sizes 6-11 (No half sizes)  
**F101 Rubair Leather Shoe**  
**£18.65**

Rubair offers superior quality leather uppers with dual density lightweight soles combining hardwearing rubber outsole with a soft polyurethane infill that absorbs shock. Choose from this dark brown leather shoe with soft padded collar, or this dark brown leather fell boot with luxury padded ankle cuff. Both are heat, oil and acid resistant and have computer designed sole pattern that is virtually slip free.

Super Saver black leather Derby boots, and Magnum burgundy leather Derby boot with deep padded ankle, all feature a nitrile rubber sole, resistant to heat, oil, acid and alkali, and which is deep cleated for extra grip.

Colour: Burgundy  
 Sizes: 5-12 (No half sizes)  
**F103 Magnum Derby Boot**  
**£16.10**

Colour: Black  
 Sizes 5-12  
 (No half sizes)  
**F105 Derby Boot**  
**External Steel Toe Cap**  
**£14.30**

For indoors or fair-weather work - but with all the Bata safety features - this black leather safety trainer is exceptional value. Lightweight, slip retardant Polyair soles are resistant to oil, acid and alkali.

Colour: Black or grey  
 Sizes 6-12  
 (No half sizes)  
**F106 Safety Trainer**  
**£15.95**

**IF YOU ARE AN ACCESS OR BARCLAYCARD HOLDER, USE OUR 24-HOUR FASTPHONE RING 0532 560046**

This honey-tan Norseman leather rigger boot has Polyair sole which is resistant to oil, acid and alkali.

Colour: Honey-tan  
 Sizes: 5-12 (No half sizes)  
**F102 Norseman Rigger Boot**  
**£28.15**

### Safemaster

We offer the very best in safety footwear from the specialists, BATA. These general-purpose heavy-duty kneeboots, manufactured in the UK to BS1870 part 3, have steel toe caps as one of the many safety features, shown here.

Colours: Black with green sole  
 Black with white sole  
 Sizes: 6-12 (full sizes only)

**F107 Safemaster with green sole** £10.55  
**F108 Safemaster with white sole** £9.55

Green-sole version has additional protective midsole.

## *Grinding to Perfection*

**N**o matter what size workshop you have Mower Machine Maintenance can offer you a modular concept grinder which will guarantee a perfect finish, with **5 superb models to choose from.**

These incorporate advanced safety features such as totally enclosed canopy and water coolant to provide the operator with an excellent working environment.

The top of the range machine, the Supreme Auto Leader represents the ultimate in mower grinding technology with features unequalled in any other machine. This is the only machine currently on the market which can grind cylinders and bottom blades with equal efficiency, utilising variable speed spin and traverse drives.

The standard features on our machines are:

- Single blade relief grinding
- In frame grinding
- Variable speed spin and traverse drives
  - Self contained coolant
  - Automatic infeed
  - Dual purpose wheelhead incorporating two grinding wheels enables cylinders and bottom blades to be ground with equal efficiency
- Bottom blade bracket and selected inframe mounting brackets
- Well proven technology and modern design

With these features we have the **leading edge.**

# THE WAY FORWARD

## Fred Hawtree comments on the discussion document from the R & A's Greenkeeping Panel

THE Panel was formed in 1986 to advise the R. & A. External Funds Committee. It has done an excellent job, securing generous aid for BIGGA and greenkeeping research at the STRI. Now it is advising other golfing bodies, first analysing their shortcomings, then showing how they can do better. One by one, the R. & A. National and county unions, STRI, golf clubs, greenkeeping, designers, professionals, trade and the media are reproached for the condition of Britain's golf courses.

The introduction stipulates two main aims - identifying influences on golf course management and suggesting ways to improve them; "the problems facing our courses today are more serious than at any stage in the game's history . . . Increased play, faulty construction, unsound agronomic management (too much water and fertiliser; too little aeration), everchanging Committees, insufficient budgets . . .". The Panel wants a plan and thinks it should come from the R. & A.

In the carnage which follows, the championship courses are mown down first: "unacceptable levels of *Poa annua* in their greens . . . a mixture of historically unsound greenkeeping (too much fertiliser/water, too little aeration), . . . etc., etc." Perhaps even by returning to these venues, the R. & A. is tacitly condoning - and publicising - *Poa annua* as an acceptable golfing grass." This seems harsh when there are a few other considerations like location, date, hotels, access, parking space, exhibition area, crowd movement, and tradition. But the argument continues: "in golfing terms a test of golf is produced which is less thorough than it should be, and certainly nothing like a genuine Links Test."

*Poa annua* also "contributes to a lessening of golfing skills which in turn reduces the possibility of more successes in international matches." Again, this is an unkind thrust when the Walker Cup (1989, in the USA!), the Ryder Cup (1987 and 1989), the Eisenhower Trophy (1988), the Masters (1989), the World Matchplay Championship (1987/88/89), the Curtis Cup (1986-1988), and the Vagliano Cup (1989) all suggest another view. Surely, David Leadbetter need not include hollow-tine fork practice in future clinics?

Make no mistake about it, there is a lot of good stuff to be found if you can penetrate the heavy disguise of inverted commas, capital letters and trendy, business-seminar vocabulary.

The title on the cover comes complete with quotation marks. These suggest that it has either been said before (which need

Fred Hawtree

not surprise us) or is a joke (which is doubtful). Fortunately they are dropped in the text, but there is a denser forest of capital letters, not always consistent. One reads.

Choose Courses, types of Courses, financing of the Course, golf Course, a good Course, and British Golf Courses. 'Course Management' is doubly upgraded though 'greenkeeping' is not. (The two terms are not defined or contrasted but 'Course Management' seems to have higher authorities in charge while 'greenkeeping' is the job. On the other hand, the authors are described as the 'Greenkeeping Panel' although there appears to be only one member who has ever turned a hole-cutter in earnest). Likewise, every golf club is a 'Golf Club' or a 'Club', used, of course, by Club golfers'. If the Prince of Wales is unhappy with recent editions of the Bible, he would despair over this one. 'Problems' and 'areas' abound, backed up by 'disparate'; 'viable'; 'realistically viable'; 'parameters'; 'profile'; 'scenario'; 'meaningful contribution'; and, of course, 'the bottom line'. This terminology tends to make an honest message appear pretentious and leads to indigestion.

### Panel-talk

'The area of the Rules'  
'Add to the overall picture'  
'On an annual basis'  
'On a nationwide basis'  
'An improved funding situation'  
'Alistair Mackenzie'

### Green-speak

The Rules  
Play a part  
Yearly  
Nationally  
More money  
Alister MacKenzie

The reader is advised to ignore these superficialities and remember the noble, pithy, punchy aspiration on the last page, "Year-round courses with firm, fast, true

greens and firm, mud-free fairways". Hear! Hear!

The way to this goal is seen as:-

1. Defining standards
2. Money
3. Education.

One can foresee difficulties over standards. The SSS scheme used to define five groups of golf courses, according to the run of the ball after a drive of stipulated length. CONGU gave that up and nobody was bothered. But there are other approaches.

Funding must surely be easier now than it was in the early days when loud protest met the English Golf Union's "bob-a-nob" scheme. If the Panel pushes greenkeeping well into the forefront of the supplicants, that will be another feather in its cap.

Education is proposed on all fronts. After reorganising committee structure with the Green Committee consisting of Chairman, Greenkeeper and Secretary, the members must be enlightened. In Sweden, no Green Chairman can be elected until he has been on a week's course. Then he can organise education of the rest. "A complete standard *armamentarium* of audio-visual presentation needs to be developed" (Now we can see why the Lady Members are excluded. The word 'armamentarium' has so far escaped me but I have heard about those Swedish videos).

Greenkeepers have already started the educational process; the Greenkeeper Training Committee must help; professionals and media need advice; architects must learn to "take direction". Or else?

There are other hints of the iron hand. We should therefore be clear that we need another tier of authority above the golf clubs, STRI and BIGGA. These will be able to provide golf courses with their firm, fast, true conditions once the research, money and education are backing them. Indeed the Panel does envisage its own demise once its job is done.

It wisely points out meanwhile, the need to respect the environmental aspects of building and maintaining courses. "Courses will be less green and soft whether golfers like it or not . . . the influence of the Augusta dream could easily lead golf courses into conflict with the community." Well said!

Can we throw in any suggestions? The Panel wants a training manual/text-book. The Course Notes issued to those attending the STRI instructional courses would provide an excellent basis (I still have mine from 1939 but one got far less in those days.) The Panel is also worried about the quality of new golf courses. The STRI, the British Associations of Golf Course Architects and of Golf Course Contractors could sit down and thresh out a standard specification up to the point where local factors take charge. Even some special cases might be included as options. Any other ideas? The Panel has purged the Politouro. Now it's up to us to help rewrite the Constitution.
