TURF PRODUCERS

Growing high-quality turf takes great skill, knowledge and LOTS OF TIME!

Now you can dramatically reduce that long growth period by using TURF-NET to speed up your turf production. Simply rolled out over newly-seeded ground, TURF-NET intertwines with the growing root system and enables lifting to take place months sooner.

Harvested turf is stronger, lighter and handles better than most non-reinforced turf. Wastage from breakages is virtually eliminated, much more turf can be produced from the same land and mowing costs are greatly reduced.

AMENITY

pro-series

The stimulation of root growth and shoot density are benefits of seaweed. Maxicrop Amenity pro-series has combined these benefits in everyday fertilisers and mosskillers.

1

Maxicrop NO. 1-Triple Seaweed

This concentrated seaweed helps produce high quality sports turf with excellent wear and recovery characteristics. Used regularly the improved root growth will produce first class colour without vigorous top growth.

Application Rates. Three applications per season of 1.2 litres per 1000 m². First application on reseeded grass when 2-4 cm growth will ensure quicker root development and tillering.

2

Maxicrop NO. 2-Moss Killer and Conditioner

This powerful iron based mosskiller gives a rapid kill of the moss and produces a dramatic improvement in turf colour. The added seaweed stimulates tough roots and strong stems to cover the thin, weak areas left by dead moss.

Application Rates. Apply 7.5 litres in 90 litres water per m². For persistent moss further applications may be required at two weekly intervals. **Contains Ferrous Sulphate. READ CONTAINER LABEL BEFORE USE.**

3

Maxicrop NO. 3-Iron Plus Seaweed

This easily applied liquid formulation of iron sulphate "greens" turf within hours of application, without the problems normally associated with applying solid iron sulphate.

Application Rates. Foliar applications of 1.2 litres per 1000 m² as required throughout the season. Especially useful for preparing turf for special events and the onset of winter.

4

Maxicrop NO. 4-Supergrass Fertiliser

The ideal foliar applied turf fertiliser, rich in NPK for a rapid response in top growth. The longer term action of the seaweed stimulates root development and shoot density, improving wear recovery growth and drought resistance.

Application Rates. Monthly applications of 12 litres per 1000 m². During dry weather apply in the early morning or evening at the higher dilution rate.

MOVEMENTS AND MURMURINGS

Ian Mathews.

IAN'S POST

TWENTY-six-year-old Ian Mathews, after nine years in greenkeeping, has taken a new position of sales executive with Purdy's Grass Machinery, Retford.

Purdy's have recently been appointed Jacobsen distributors for Nottinghamshire, Derbyshire and South Yorkshire.

Ian will be responsible for opening new accounts in areas not previously covered due to territorial restrictions.

EAST DORSET GOLF CLUB CONSTRUCTION PLANS

PROPOSALS for the construction of the additional nine holes and the reconstruction of the existing 18 holes have now been submitted by the East Dorset Golf Club's course architect, Martin Hawtree of Hawtree & Sons.

Work on the additional nine holes should start in April and it is anticipated that they will come into play in 1992. Reconstruction of ten of the holes on the existing course will start in May, and by turfing (as opposed to seeding) the greens involved it is hoped that they will come into play in 1991.

Work on the remaining eight holes of the existing course will start in 1991 and these should be back in play at the same time as the new nine holes in 1992.

Whilst work is taking place 18 holes will be available to members and visitors. Landscaping of the area in front of the clubhouse will include a new large putting green (par 3!) and the clubhouse itself will be enlarged with additional car parking facilities.

The Club's General Manager, David Thomas, sees the overall construction programme as an exciting one although current members may suffer a little during the next couple of years.

EMPLOYEES BUY TURFMASTER

THE employees at grass machinery manufacturers Turfmaster,

Gainsborough, Lincolnshire, have bought their company from the previous owners, Harlow Agricultural Merchants (HAM).

Turfmaster is now an independent company with HAM retaining only a 20 per cent share. Funding arrangements are also in place.

HAM, of Bishops Stortford, Essex, was keen to reduce its stake in Turfmaster because the fit with HAM's, "corn, seed and feed" business was poor. Equally Turfmaster's managers and employees felt they were ideally placed to move the company forward into the 1990's.

John deGraft-Johnson, Turfmaster's chairman, says: "Product performance, quality and service are the key issues in the professional market. So employee commitment is paramount.

"In many companies these words are truisms without teeth. But in Turfmaster's case, the employees have backed their words with hard cash. The enthusiasm and dedication is therefore total."

END OF AN ERA

WHEN George Small, Greenkeeper/Professional at Galashiels Golf Club in the Borders of Scotland, retires on the 29th March 1990, it will bring to an end 62 years of unbroken service by the Small family at this club. In 1928 Bob Small moved to Galashiels from Lundin Links to take up the position as Greenkeeper/Professional. Those were the days of the horse drawn mowers and greenkeepers walked everywhere their tools over their shoulders or in a wheel barrow. Bob Small was a great believer in the Greenkeeper's Association and would attend the East of Scotland outings even though it meant leaving home at 6 a.m. travelling by train or bus, sometimes both and walking, as all the greenkeepers had to do from the local station to the golf course. Like the rest of that merry band he would never be home the same day by the time they made all their connections to get home again. In later years, though he could not play himself because of war wounds he encouraged his sons to play in the Greenkeeper's outings and he

was a proud man in 1953 when at the Scottish National Tournament at Glenbervie two of his sons George and Alec won both the Scratch prize and Handicap prize. Bob retired in 1960 after serving Galashiels Golf Club for 32 years. And his son George immediately took over. Although George was not a long term member of the Greenkeepers Association, being a Greenkeeper and Professional and raising a family of 6, after the untimely death of his wife, did not leave him time to be involved, however he was always interested in the Greenkeepers Association. George started as a greenkeeper at Galashiels, then moved to Buchanan Castle under the late well known Willie Bradford before moving to Dunbar as Greenkeeper/Professional and finally back to Galashiels. George will stay in Galashiels after his retirement, where most of his family live and no doubt still have a regular game on the hill and may be ponder over all the changes that have taken place in greenkeeping in the last 62 years. Even though the break has been made with Galashiels Golf Club the family connection with greenkeeping lives on in the shape of Bob's youngest son as a head greenkeeper and this son's son has also entered the greenkeeping profession.

ROUGH ON THE GRASS

IT has come to our notice that the Marquess of Salisbury has a major problem with the turf at Hatfield House and the damage perpetrated by the visiting hordes who pay handsomely to walk on the ancient sod.

In 1986 the Marquess decided gently to redirect people from the house by making more of the gardens maintained by a team of six gardeners. Last year over 60,000 people tramped round what was designed as a private pitch.

David Beaumont, the head gardener, explained that they have tried growing the grass through wire mesh, putting in four inches of easy draining sand and installing upturned cones with mesh tops at particularly susceptible points like gates and crossroads.

The current approach is to use a plastic variant on the concrete cone or simply putting in a few bricks to act as stepping stones. The topic is now standard at the quarterly meeting of the Professional Gardeners' Guild but it seems

no one has the answer. "There are some people," he says, "who swear by some fancy method or other but most just re-turf. And to be honest, I think that's all you can do."

Can those more inspired with their own answers please write to me. And if you go visiting, please step on the bricks!

TREES ON COURSE TO SAVE MONEY

WHEN Castle Point District Council, Benfleet, Essex, decided that the new club house on their municipal golf course could benefit from a little landscaping, it had all the hallmarks of becoming a costly exercise.

However, Peter Crowe, Arboriculture Officer came up with the idea of using assets already owned by the Council, namely the trees. To one side of the course was a small copse of Scotspine left to grow wild.

With the assistance of local contractors RUSKINS, who were the only company in the south east with the specialised Big John tree spade required for the job, a total of eight trees were up-rooted and re-planted around the club house, in a single day.

The Big John digs below the roots freeing them without damage ready for transporting to the new site. Specially formulated fertiliser lines the hole dug to receive the tree to ensure that all the ingredients for the trees survival are present.

Pictured during the 'dig-up' are Jamie Martin, above left from Ruskins and Peter Crowe of Castle Point District Council.

IN THE PICTURE

ROLAWN AND BIGGA GET TOGETHER

AT the European Turf Management Exhibition in Harrogate, Rolawn Turf Growers announced their sponsorship of the first in-house construction course to be held by the British and International Golf Greenkeepers Association.

The course: "The Use of Cultivated Turf in the Construction of Tees and Greens", will be held on March 28-29 at BIGGA's headquarters at Aldwark Manor near York.

"As older or heavily used greens and tees require major renovation, greenkeepers are finding an increased need to know all about aspects of construction" says David Golding, BIGGA's Education Officer.

BIGGA has organised this course as part of their training programme and delegates attending will receive three credits towards the newly launched Master Greenkeeper Certificate.

The course includes lectures and demonstrations by Brian D. Pierson, one of the country's leading golf course constructors and Robert Laycock, Rolawn's Technical Director and a turf scientist in his own right.

Also on the programme is a visit to Rolawn's turf production fields near York, to see the latest developments in the cultivated turf industry.

Rolawn's sponsorship of the course means delegates will only have to pay a nominal fee (£30 residential, £10 day) for this BIGGA course, although places are strictly limited and early application is advisable.

Rachel Semlyen, Rolawn's Marketing Director says of their sponsorship, "We are pleased to have been asked to sponsor this course as part of BIGGA's programme to improve standards and training of greenkeepers."

In the cultivated turf industry there have been many changes and developments that make construction and renovation more feasible for more greenkeepers, but only if they have the knowledge and training."

PRINCES G.C. BOOKED

NORMAN Exley, the South East regional Administrator has confirmed that Princes G.C. in Kent has been booked for the Greenkeeper 1992 National Tournament. Ganton this year, followed by Royal St Davids in 1991, certainly sets the standard for our future venues - first rate courses all!

Left to right: Simon Tullett, General Manager of Agria UK Limited, Mike Butler of Warwickshire County Council and Richard Forty, Sales Director of Murleys stand beside the 9300 Agria ride-on mower.

LESSONS ON THE LAWN

IN January Warwickshire County Council's Sports and Ground Services Department took delivery of £160,000 worth of ground care machinery from Murley Agricultural Supplies Limited of Warwick.

The nine Agria 9300 triple cylinder ride-on mowers and three Ford 3910 tractors will be used by sports and ground services throughout Warwickshire, where they maintain in excess of 5.5 million square metres of grass.

Grounds Maintenance Manager, Mike Butler, said: "Our decision to buy the Agria 9300s was reached after extensive research into the equipment available and more importantly after extensive working trials."

Of the working trials, Phil Garrett, Area Manager for Sports and Ground Services said: "The Agria came through with flying colours!"

Simon Tullett, General Manager of Agria UK Ltd, said that he was especially pleased that Murleys got the order, as Warwickshire County Council, where possible, like to procure equipment from suppliers within the County.

Murley Agricultural Supplies Limited of Warwick, who supplied the machines have been Agria dealers for two years and Richard Forty, Sales Director, said: "We have a reputation for quality and service and the Agria range completely supports our policy."

FINDLAY PICKEN IS NEW CHAIRMAN OF GOLF FOUNDATION COUNCIL

FINDLAY Picken is the new chairman of the Golf Foundation Council following the Foundation's annual general meeting in February. He succeeds Tony Wheeler who was chairman for the past seven years. Mr Wheeler remains a member of the Council.

A chartered accountant by profession, Findlay Picken is well known in the world of golf having worked for many years for the Dunlop Company, including 12 years as managing director of the International Sports Company. He has served on the Golf Foundation Council for the past ten years with special responsibilities for finance.

A single figure handicap golfer, he is a member and past Captain of Walton Heath Golf Club and a member of the R & A.

HAWTREE - NEW CONCEPT IN GOLF COURSE PROVISION

MANY farmers are deterred from converting their land into a golf course because of the high production costs involved. With 700 courses required by the year 2000 to meet demand, the irony is that these landowners have ideal sites but feel limited by finance.

Now Hawtree, the international golf course architects, have come up with a revolutionary idea for what in essence are do-it-yourself golf courses, in which they submit a simple design and then allow the farmer and his workforce to build it in their own time, while maintaining a supervisory role.

By this method the Oxford-based practice, responsible for more than 300 courses worldwide is making golf course ownership more attainable. The first example of this new concept is the Sandford Springs Golf Club near Kingsclere in Hampshire on the site of Sandford Farm owned by Raleigh Place.

The complex was opened by Nick Faldo U.S. Masters champion earlier this year.

THE VICTA RYAN CHANGEOVER

VICTA (UK) Ltd announce that with effect from July 1 they will be relin-

quishing the distribution of Ryan turfcare equipment. After that date Ransomes, new owners of Ryan, will arrange their own distribution.

Commenting on the situation, Victa's managing director, Bill Brooks said: "To ensure that our customers are not inconvenienced, we have negotiated with Ransomes for spare parts to be available from our dealers until June 1991. Every effort will be made to make the transition as smooth as possible."

Grounds maintenance manager Miles Milner (left) and parks and sportsgrounds supervisor Mark Hogan, with the Overseeder.

CRICKET SQUARE SAVED, THANKS TO "CHARTERHOUSE OVERSEEDER"

CRICKETERS in Reading have an extra cricket table, thanks to the versatile Charterhouse Overseeder, from turf management specialist Charterhouse Turf Machinery.

The pitch at the Sol Joel Playing Fields, owned by Reading Borough Council, had been overgrown for some years and was proving difficult to re-establish.

But then the Borough's grounds maintenance unit contract services decided to use the Charterhouse Overseeder, which had been bought in May this year. "Having flailed the long grass, we overseeded, and the new turf came up a treat, in the middle of the season," said Miles Milner, grounds maintenance manager. "The wicket will be in play next year."

Mr Milner said that, in the past, many groundsmen would have been wary of using so large a machine on a cricket wicket. "But we gave the Sol Joel pitch the intensive overseeding it needed - and it worked."

LESCO

CUT COSTS NOT QUALITY

LESCO 300D

For sheer value the LESCO 300D Greens Mower cannot be beaten. A combination of superior hydraulics with proven quality components, Lesco have engineered the tournament Greens Mower.

Powered by a 3 cylinder diesel engine or an 18hp petrol engine provides complete hydraulic operation, including power steering and hydraulic drive to the cutting cylinders.

Optional extras include turf groomers, verti-cut units and tees units.

The Greenkeepers dream – simplicity with quality.

Turner International is an Elswick plc company

PRODUCT FOCUS

The Holder M1000 professional bank mower in action.

THE HOLDER M1000 - A TRULY PROFESSIONAL BANK MOWER

BANKS, verges and steep grassland slopes up to 45 degrees, some of the more problematic areas for mowing, can now be tended by the Holder M1000 professional bank mower.

The rugged design of the machine, with its low centre of gravity and wide track make it ideal for use on banks for mowing and shredding grass, weeds and scrub.

A unique design feature is the ability to use the centre drive with a double reciprocating knife cutter bar width of 48" or 54" or select the Holder side outrigger with working widths of 47 and 55 inches. A flail mower with a 39" working width can also be easily attached for high grass and wasteland use.

All cutter speeds are independent of forward speed with mechanical drive to the implements via a bevel gearbox and mechanical clutch.

The side drive mower head is particularly safe on banks as the offset mowing unit allows the operator greater stability. Hydrostatic steering enables the operator to use the machine for long periods without fatigue.

182

THE COLUMBIA UTILITRUCK

NEW to the UK for 1990 is the Columbia Utilitruck available with electric motor or petrol engine. This has been developed from the Columbia ParCar, originally of Harley-Davidson pedigree.

The frame is tubular steel with a front body of virtually indestructible RIM moulded Metton. The rear body is steel with aluminium plate flatbed, steel cargo box and tailgate. The Utilitruck has a carrying capacity of 1000lbs and speed is governed at 12 mph.

SISIS Equipment (Macclesfield) Ltd are sole importers of the Columbia Utilitruck for UK and Eire. Also available are the Columbia Shuttle 4-seater transporter and the Columbia ParCar golf buggy or runabout, all with choice of power source.

176

NEW RANGE OF SACHS-DOLMAR LAWNMOWERS FOR 1990

FOLLOWING in-depth research into customer needs and EEC requirements, Sachs-Dolmar have launched a range of eleven lawnmowers which meet their high safety and construction specifications, for the 1990 season.

Marketed in the British Isles only by Sachs-Dolmar (UK) and their country-wide dealer network, the lawnmowers are divided into two ranges. The standard range consists of economy models aimed mainly at the price conscious market. The premier range although more expensive have more features and are targeted at the more discerning buyer.

All are rotary mowers and are supplied complete with grass catcher. One model is electrically powered and all the others use petrol engines from respected and world famous manufacturers.

The standard range starts with the very low cost On-daverde, an electric powered 14" mower with a sturdy 700 watt motor. This lawnmower

The Sachs-Dolmar model GR 480 OBK 19" four-wheel mower with power drive.

promises to effectively take on the mowers sold by the large DIY stores.

The other three models in the standard range all have Briggs and Stratton engines. They are the Maxi 35, the Model M40 - a 19" mower featuring an alloy deck and a 4hp Max 40 motor and the same model with power drive designated the Model Max 40SP.

The seven models in the premier range are all powered by the world renowned Kawasaki VX 4-stroke, 4.5hp petrol engine which is designed to run on lead free petrol.

3

The Honda H4514 lawnmower which is equipped with the Honda 'Slick Shift' hydrostatic stepless shift mechanism.

HONDA MAINTAIN LEAD IN TECHNOLOGY CONTEST

INNOVATIVE technology takes the Honda range of garden machinery into the '90s with a new lawnmower and a ride-on mower both equipped with the Honda original hydrostatic stepless shift mechanism to make mowing even easier and more enjoyable.

An advanced development of conventional hydrostatic transmission, Honda "Slick Shift" is an innovative unit which offers reliability and stable performance and allows effortless, stepless, single-lever starting/stopping and speed control.

The optimum speed for the job can be set by using one lever which provides the control for moving off, accelerating and slowing down. The system transmits engine power more effectively than conventional mower mechanisms giving a smooth ride throughout the speed range, and an even finish.

'Slick Shift' minimises power

loss through internal friction and drag ensuring maximum power to drive the wheels. Designed specifically for this application it is remarkably compact, a feature achieved by housing the differential gears in a unique, Honda-developed transmission casing which is virtually maintenance free.

The engine cover's double layer structure effectively suppresses engine noise.

183

NEW SHUTTLE SHIFT FROM SHIBAURA

THE new Shibaura S 445 incorporates a new forward/reverse change without use of the clutch using a hydraulic system which gives immediate forward-reverse change by use of the single change lever the system is hydro-shuttle.

The gearbox has 24 forward and 24 reverse with creep speeds as standard with steps from 180 metres per hour to top speed of 30 kph.

The Shibaura S 445 has a four cylinder Shibaura diesel engine producing 45 hp (DIN) with a cubic capacity of 2269cc.

Lift capacity at the three point linkage is 2175 kg. An extremely small turning circle of 2.72 metres is obtained by the unique Shibaura front axle and is possible by the front axle drive going via the king pin.

The Shibaura S 445 is because of its low weight, short wheel base, tight turning circle a very versatile tractor and is ideal for turf and ground work, golf courses, horticulture and agriculture.

The new Shibaura S 445.

THE OFFICIAL PUBLICATION OF THE
BRITISH AND INTERNATIONAL
GOLF GREENKEEPERS ASSOCIATION

1990 BIGGA GREENKEEPER MEMBERSHIP PACKAGE

BIGGA offer a comprehensive membership package for greenkeeper members. The full range of services and benefits is in line with a progressive professional Association. Full details are available from Headquarters Office on request, but the package includes:-

- (i) Monthly copies of Greenkeeping Management — the Association's official publication.
- (ii) The annual Journal and quarterly Bulletins of the Sports Turf Research Institute.
- (iii) Full Legal Advisory Service, including personalised card.
- (iv) Full Employment Cover.
- (v) Full Personal Injury Cover.
Pursuit of civil claims by the Insured for damages, specific performance or injunction arising from or out of
 - (a) A contract of employment.
 - (b) Death or personal injury of the Insured from any cause.
- (vi) Beneficial Insurance Options in respect of Car, Home — Building and Contents, and Vehicle Breakdown.
- (vii) BIGGA Enamelled Lapel Badge.
- (viii) BIGGA Membership Card.
- (ix) Use of Placement Referral Scheme.
- (x) BIGGA car badge sticker and golf bag tag.
- (xi) Personal Accident Cover, providing capital sums for: Death (£5,000), loss of use of one or more limbs and eyes (£5,000), permanent total disablement lasting 104 weeks at the end of which being beyond hope of improvement (£5,000).

However, a most attractive feature of the negotiated scheme will enable members suffering temporary total disablement in excess of seven days to receive a weekly income of £25 for a maximum of 104 weeks.

Also, it will be possible for members to purchase additional units at their own cost within the scheme and a pamphlet incorporating an application form will be made available upon payment of subscription.

INTERNATIONAL MEMBERS — All items in the package are available to members both in the Republic of Ireland and internationally with limitations on items (iii), (iv) and (v). The personalised card can be used for seeking legal advice, but this advice will relate to either English or Scottish Law. The card can be used when the member is visiting Great Britain, both for advice and in respect of any claims arising during or from such visits.

ISEKI

The driving force

TU

The midrange maestros – the Iseki TU range offers you a choice of manual or hydrostatic drive, with models from 19-27 horsepower all designed for more productivity and performance, whatever the task.

TA

Iseki TA Tractors mean big productivity on courses or in parks – three models from 33 to 48 HP, all with four wheel drive and Iseki shuttle drive gearboxes.

DIESEL Rider

TX

The original compact tractor – these 16-18 horsepower machines offer you real versatility with 2 or 4 wheel drive and front, mid or rear mounting points.

For professional or domestic grass cutting the Iseki Diesel Rider means you can cut and collect in one productive pass. A choice of 13-15 horsepower models with manual or hydrostatic drive.

Iseki have a range of tractors to suit your needs. From 14-48 horsepower you'll find no more versatility, no more technical excellence, no better support and no better finance schemes. That's why Iseki are the driving force – because no one looks after your compact tractor needs more than Iseki.

Please send me more details on the Iseki range of Tractors.
I am particularly interested in the following ranges:

Tel: 01 850 4477**

GOLF COURSES SUPERVISOR

The Gleneagles Hotel, one of the foremost leisure resorts in Europe, wishes to appoint a Golf Courses Supervisor to join the team in Scotland.

Reporting to the Estates and Golf Courses Manager the position involves daily management of a team of Head Greenkeepers to ensure the courses are retained in excellent championship condition.

In the initial period, however, the successful applicant would be required to oversee the constructional phases of the new Jack Nicklaus designed golf course and development of an executive par 3 nine hole course.

The ideal candidate will have recognised college qualifications, and no less than two years' relevant experience with an American style golf course operation.

The position also demands an articulate communicator, an ability to use initiative and a high level of self motivation.

If you are interested in this challenging position and feel you have the experience, please send an up-to-date CV to:
Ann Bulleid, Personnel & Development Manager, The Gleneagles Hotel, Auchterarder, Perthshire PH3 1NF.

Telephone: (0764) 62231.
