EDITORIAL REPORT

The Editorial Committee is making a sincere effort to provide our association members with information which can be used to good advantage in course maintenance operations. Keeping up with the very latest in materials, machinery, turf, and news in general shall be our policy and guide.

We are fortunate to have a few non-members on the staff who have gladly consented to cooperate in whatever manner that will be of some benefit to our organization. These persons have a technical background, and because of their extensive visits to many golf courses throughout the nation, they also possess a very high degree of practical information.

Association members serving on the staff are expected to provide the publication with information concerning district developments and pertinent news about the functions of our Association which may be of interest to its members.

In order to maintain a progressive status by this committee, it is very important that we receive as often as is possible, interesting copy material from the membership at large - if this can be accomplished, it will make our responsibilities much easier.

FRED INGWERSON PASSES AWAY

We regret to report the death of Fred Ingwerson, who passed away on March 28th following a brief illness. Fred was a very active member in the Midwest Association during the past twenty-five years and at various times served on the Executive Committee as a director and vice president. The greenkeeping superintendents of this district will always remember the many contributions offered by Fred for the good of the Association, and for the benefit of his fellow members.

A GRIM GAME

A golfing clergyman had been badly beaten on the links by a parishioner thirty years his senior and had returned to the clubhouse rather disgruntled. "Cheer up" said his opponent, "remember you win at the finish. You'll probably be burying me some day." "Even then", said the preacher, "it will be your hole."
