

MEMBERSHIP REPORT

For the number of golf courses located in the Chicago District, our Association membership should be much larger than it is at present. In order to increase our enrollment, both regular and associate, it is the responsibility of each member to take a little interest in this missionary work by contacting some of these superintendents employed at nearby clubs who are not members of our Midwest Association.

For your information, the following list of golf courses in the Chicago District are without superintendents representation in our organization. Check over this list carefully, and if you are close to any of these courses, I would appreciate it very much if you would make a friendly visit for the purpose of getting acquainted with the superintendent, and perhaps in time you may encourage him to join our district organization.

Henry Lange, Chairman
Membership Committee.
