

NOMINATING COMMITTEE REPORT

The Nominating Committee of the Midwest Association of Golf Course Superintendents has prepared the following list of candidates, all of whom have signified their willingness to run for the various offices, for the election of officers of our Association for 1956.

PRESIDENT: Robert Williams

1ST VICE PRESIDENT: Amos Lapp
Herman Woehrl

2ND VICE PRESIDENT: William H. Stuppel
Gerald Dearie

SECRETARY & TREASURER: Al Johnson

DIRECTORS: (3 to be elected)

Gordon Brinkworth, Dave Mastroleo, Walter Fuchs, Al Rouch, George Roloff

Respectfully submitted, Midwest Association of Golf Course Superintendents Nominating Committee.

Amos Lapp, Dom Grotti, Ray Davis, Walter Kilmer, Ray Gerber, Chairman

THE INSECT CLINIC

Our annual Fall Clinic, which this year deals with insects, will be held on December 7-8 at the College of Pharmacy of the University of Illinois, 833 Wood Street, Chicago. The program of the first day will be a discussion of a general knowledge of insects in the morning and a life history of the same in the afternoon. The second day will consist of a general program and discussion. All sessions will be under the supervision of Dr. Ralph Voight of the College of Pharmacy. Dr. Bernard Greenberg an Entomologist on the Staff of the College of Pharmacy will handle the whole clinic and has accepted this assignment enthusiastically. He expects to be able to show us the life cycle of those major insects that are of interest to Golf Course Superintendents and will use pictures, specimens and descriptive material. Dr. Greenberg is also an expert on spiders.

IT WAS CHET KEELEY'S PARTY

On November 21, 75 members of the Michiana Golf Course Superintendents Association and guests met at the Notre Dame University Golf Course at South Bend, Indiana, to do honor to the Superintendent, Chet Keeley for his 25 years of service to the golf course. 17 members of our Association were present. We met in the Morris Inn on the campus to partake of a bountiful turkey dinner in the evening after an afternoon of inspecting the stadium turf on which Chet has done an outstanding job of renovation. This meeting at Notre Dame is an annual event and Chet raises the turkeys for the dinner. Joe Bolan, who was a member of the football team on which the Four Horsemen played, and who is now a sports announcer, acted as Toastmaster. Father George Holderith and several other members of the faculty at Notre Dame were present at the dinner. Father Holderith is, among other things, coach of the golf team and is Chet's green chairman. Joe Graffis was called upon to give us a talk, which he did in the usual Graffis style. Chet showed us some slides of the work done on the campus turf and we then enjoyed the movie of the Notre Dame-Iowa game. Our many thanks to Father Holderith and others for their wonderful hospitality and we will be back next year.

SPREADING IT THIN

Ray Davis' wife, Martha, is really enjoying life since Ray moved to North Shore C. C. Martha went swimming this summer in Lake Michigan for the first time in her life and still wears the mark of the sunburn.

Susie Johnson, wife of Al Johnson of Indian Hill almost didn't make the dance. Susie was paring her corns preparing to have a good time when the razor slipped and almost cut her little toe off. Susie didn't get in a single dance.

Elmer Lemke of Tam O Shanter said the food was good and that he was having a good time.

Don Swenson of Round Lake reported that he increased the size of all the tees this fall. Duck hunting is poor in that country this year but there are a few pheasants around. Their tree planting program is well advanced and they plan to plant 200 trees during the fall and winter.

Lawrence Andrews is now Golf Course Supt. of South Shore C. C. taking over the course responsibilities from Carl Peterson who is still supt. of buildings and grounds. Lawrence is 47 and has been with the club 20 years and on the grounds all that time. He is well qualified. He worked under Geo. Roloff from 1935 to 1941 when Geo. was Grounds Supt. there.

Agar Brown, Secretary of the National Association gave an excellent report of the activities planned for our Annual meeting of the National at Long Beach, Calif. Agar made one point that will register with everyone who hopes to make the trip, that the California boys are planning a "Big Program" for the ladies and when the men from California get behind a project you can bet that it will be well executed, and that the Ladies will be well entertained.

Emil Cassier and his wife and two daughters took off November 7th for two weeks in Florida. We hope you caught some fish, Emil.

Mr. A. C. Hoy and Dave Mastroleo of Arrowhead C. C. are working hard on their new driving range and maintenance building. They are rebuilding four tees and plan to plant Merion blue grass.

Harry Drafke of Accacia C. C. is recovering from a gall bladder operation he underwent the middle of October. Those of us who know Harry can imagine him being sick and in a hospital but reports have it that he is a model patient and that the nurses thoroughly enjoyed him after they got over being scared. Harry lost 31 pounds during his 12 days in the Hospital. He will be back working in the club barns after Dec. 1st. Drop in and see him.

Many of our members attended the Dutch Elm Clinic at the Sheraton Blackstone Hotel, November 10th. It was a good clinic but painted a black future for unprotected Elm Trees.

Every one enjoys knowing of the success of his fellow man and enjoys knowing when the garage has to be rebuilt to fit the new and longer car. The latest one in our long list of friends to remodel his garage to fit the new car is Ray Gerber who had the carpenters in for a week to lengthen the building so his new car could be properly housed. Congratulations, Ray, may we have a ride in it some time?

Matt Bezek reported that his daughter had sent him a beautiful set of fishing tackle especially imported from Japan, consisting of several poles and lines and other equipment. We hope you get a chance to use it, Matt.

Herman Woerhle of Kankakee Valley said that they had lost 12 beautiful young Elm trees to the Dutch Elm Disease this last summer. Herman was able to show us some of the sick trees when we visited him during the June meeting. Herman is thinking of making a trip to Germany again this winter; his son Ted is there now with the U. S. Forces.

Gerald Gerber is in Germany with the U. S. Forces. He is looking over the possibility of getting on with his education while there.

Walter Kilmer of Ravisloe C. C. rebuilt two greens this fall and used Pennld stolons on them. Walter reports that they look good. His number 1 green, rebuilt last fall and planted with Pennlu was very satisfactory this year, Walter reports. Walter plans to change the valves on his watering system this winter but also expects to make the trip to Long Beach.

Dr. Voight reports that the Annual Turf Clinic plans are complete and that the schedule will be in the mail very soon. Peter Bild has the envelopes ready all addressed to Al Johnson and as soon as things are cleared Pete will get them in the mail to you. It will be a good program covering one type of our most persistant pests, so plan to attend the Clinic December 7th and 8th. Addresses will be on the folder Pete will send you.

Those of us who dread the drive to California over the southern route for fear of rains and bad weather should consider the annual trek of Gordon Brinkworth and his family who most every year drive to Lake Louise in Canada to spend the Christmas vacation. Gordon plans to make the trip in three days, says it is cold but that he usually runs on schedule. This is really reversing things, going North instead of South but Gordon says it can be done and proves it. Gordon's father is Supt. of the Golf Course at Lake Louise.

The Annual Clinic will be held in the Pharmacy building which is a brand new building, one of the most modern of University buildings in the world. It will be worth the time alone to visit the building.

Dom Grotti had intended to attend the meeting at Notre Dame, but caught a severe cold and his wife, Betty, allowed as how Dom had better stay home and get over it. We hope Dom is fully recovered by this time.

The Curling season is now in full swing at a number of clubs in the Chicago District. More and more of them turning to artificial refrigeration for their ice. The latest to nstall a refrigeration system is Glenview Golf Club. Curling is getting to be a big job for the Superintendent and is being taken by them as just another part of their varied activity.

The summer of 1955 goes down in the records as one of the hottest for years. All records for days in which the temperature read 90 or higher were broken with 46 such days. I guess nobody who has anything with care of turf is sorry to see summer over. It has been one grand headache.

We met our old friend Earl Dowell at Notre Dame. Earl is now president of the Indiana Golf Course Superintendents Association.

One of the Midwest boys, during the height of the festivities at the Michiana meeting was heard to ask, "Say, how long has this been going on?"
