OUR FALL DINNER DANCE

Our Fall Dinner Dance will be held at River Forest Country Club on Saturday Evening, November 24. Mr. and Mrs. Ed Stewart will be our host and hostess and we can assure you that from past performances, that Ed and his wife will really put out the welcome mat and assure you a grand evening. As has been the custom at our parties, there will be special entertainment, the nature cannot be divulged at this time, but which you have to come out to see. As usual, there will be a delicious dinner waiting for us, dancing music by a top rate orchestra and drawing for door prizes, many of which are so generously donated by our commercial members and friends. Take it from the Editor, you better not miss this if you like to have a good time.

OUR ANNUAL CLINIC

Elsewhere in this issue you will find the program for our Annual Clinic to be held at Olympia Fields Club on November 27 & 28. Gordon Brinkworth, who is our Educational Committee Chairman will be our host, and with the assistance of Research Committee Chairman Frank Dinelli has lined up a program which, we think, will make this one of our best educational meetings in the history of our Association. Besides some top-notch speakers, we will have on the program a number of members of Dinelli's research committee who have, thru the past summer, been working and making observations on several private research problems of their own. This, we believe, is something unique in our Association and although we have talked about it and thought what a wonderful thing it would be for Superintendents to bring their findings and conclusions to the attention of the others, this is our first organized effort in practical research. It should be a fine meeting and you should not miss it.

Don't forget the Michiana meeting at Notre Dame University on November 19. Chet Keeley will be host superintendent.

Peter Bild of Woodridge C.C. has rebuilt two greens, enlarged six others to more than double their former size and rebuilt and enlarged five tees and added about 300 yards to the length of the number 2 course. He sure has been busy and in addition to all of this has found time to do some work on the revision of the by laws for the organization.

Gordon Duguid has reworked 18 tees and built six large sand traps at Villa Olivia C.C. where he has been for the past year. Gordon and his wife are very happy there in the Farm House on Rt. 20.

Gerald F. Dearie of Edgewater, as distinguished from his Father, Gerald of Medinah C.C., plans an extensive tree pruning program this winter. Every tree on the course will be pruned. Gerald and his wife are waiting the arrival of their first son who is due some time in January. They have a two year old daughter who looks forward to taking care of her expected brother on his arrival.

The Illinois Central Railroad has a Station stop at Olympia Fields C.C. for any of those interested in making use of same.

The maintenance Shops and Grounds Headquarters are located adjacent the water tower and all those wishing to visit them are most welcome to do so.

The Midwest Association wishes to extend it's sincere thanks and appreciation to the officers and members of this fine club for the opportunity and privileges they have extended to us in allowing our Clinic to be conducted here.

G. W. Brinkworth
Educational Committee Chairman

Alex Strachen from the Old York Rd. Country Club, Jenkintown, Philadelphia Pa. was a guest at Tam O'Shanter C.C.

SPREADING IT THIN

Saturday, September 20th was Frank Mastroleo Day at the Geneva Country club. It was a beautiful day and Frank reported that there was an excellent turn out, and that over 50 people played golf. Frank was highly pleased. Frank and Mrs. Mastroleo had another highlight during this month when they celebrated their 35th Wedding Anniversary also at the Geneva Country Club. On October the 14th Dave and Donna Mastroleo and Daves Sister threw a surprise 35th wedding anniversary for Frank and Mrs. Mastroleo. By the time they recovered from their surprise, some 250 friends had wished them well and asked to attend the next anniversary party. It was awfully nice.

Bill Swantz of Hinsdale C.C. spent two days in the Hospital early in October. Bill was adjusting a scraping blade behind a tractor, got his finger in a bolt hole to get the blade lined up and got it sheared off. He lost about 1/2" of finger.

Walter Hoyt of Timber Trails C.C. probably has the most leaves to clean up and certainly does a great job keeping his course clean every fall. The fairways at Timber Trails are carved thru a Native Oak Forest and every little storm brings down a shower of leaves and twigs and sometimes branches. The cleanliness of the course is certainly a tribute to Walters industry and ability to meet any situation. The Toll road will cause some rebuilding and relocating of holes at Timber Trails but it is believed that this work can be done in a manner that will not interfere too greatly with play.
