

SENIOR EVENT TO BE PLAYED NEXT MONTH

For all the members of the Association 50 years old or older the Golf Committee will hold a special event for you. Ken Lapp, Chairman of the Golf Committee informs us that he will hold a seniors event like we held years ago. This should be an exciting duel between some of the old timers. Brush up on your game, old timers, and see what you can do.

REMINDER

If you hear of any illness, birth or death in the immediate family of any member of the Midwest Association of Golf Course Superintendents PLEASE notify Al Johnson at the following numbers:

TA 5-3809 TA 3-8682 TA 3-3101

Al is the Chairman of the Benevolent Committee and he will take the appropriate steps. The success of this program depends on YOU.

ORLAND PARK, ILL.

DIED

Franklin Delavergne Jones, 65, Pennsylvania chemist who in 1944 discovered the nation's most widely used herbicide, 2, 4-D; of cancer; in Philadelphia. Experimenting with synthetic plant hormones, Jones found that one killed broad-leaved plants instead of stimulating growth, leaving such narrow-leaved plants as corn unscathed; it soon became the standard ingredient in preparations for controlling poison ivy and dandelion, paved the way for a host of other weed killers.
