ditional spray may be applied after the second growth of leaves occurs, usually in late July in Illinois. This foliage spray should be half the strength of the dormant spray. To adequately cover alms 70 to 90 feet tall, mist blowers must develop 6,000 or more cubic feet of air per minute at a velocity of 90 or more miles per hour and hydraulic sprayers must develop 500 to 600 pounds of pressure and deliver 35 or more gallons of spray per minute.

To effectively prevent bark beetle feeding, all bark surfaces must be completely coated with insecticide. Special care should be taken to thoroughly coat the crotches of young shoots, especially those in the upper parts of the trees. Trees should be sprayed when wind velocity is less than five miles per hour, when the bark is dry and when the temperature is above freezing.

Once upon a time, there lived a typewriter. His 46 keys functioned quite well except one key which was not working, and that madx thx diffxrxncx.

Somx may say to oursxlvs, "Wxll, I'm only onx pxrson. I won't makx or brxak a projxt." But it doxs makx a diffxrxncx, bxcaus any projxt, to bx xf-ctivx, nxxds thx sincrx cooperxion and participx-ation of vxry onx — a 100 pxrcxnt xffort.

So, at this 1968 sxason, wx want to rxmind our-sxlvs that although wx may bx only onx pxrson and that wx fxll that our xfforts may not bx ap-prxciatxd, rxmxmbxr this typxwritxr story and say to yoursxlf, "I am an important pxrson in thx Midwxst Golf Coursx Supxrintxndxnts' Association and I am nxxdxd vxry much."

And lxt mx say "Amxn," bxcaus wx think so, too.

ILLINOIS TURFGRASS FOUNDATION

From the Office of the Executive Secretary—349-7766

The newly elected officers of the ILLINOIS TURFGRASS FOUNDATION held their first Board of Directors meeting of the year at the office of the President, Robert G. Johnson, Illinois Lawn Equipment in Orland Park. Present were: Robert Johnson, Ben Warren, John Coghill, Mr. Hurr, Mr. Frederickson, Mr. Bottoms, Mr. Miles, Acting Secretary Mrs. Carey and Dr. Michael Britton and Dr. Jack Butler from the University of Illinois.

The first order of business was the approval and appointment of Dorothy H. Carey as Executive Secretary-Treasurer to fill the post vacated by the death of Dr. Frederick F. Weinard. The ILLINOIS TURFGRASS FOUNDATION is happy to announce the acceptance of Mrs. Carey whose qualifications were highly recommended. For many years Mrs. Carey has held and still holds the position of Executive Secretary for the Chicagoland Golf Assn., Southwest Golf Assn. and the Sod Growers Assn. of Mid-America.

The next order of business was the proposed agenda for the forth coming year. A Bi-Annual newsletter or publication will be sent to members of the ITF; a short course will be in the offering for industrial plant managers or groundsman bringing them up to date on what is happening in the research and care of turf. Problem questions will be answered. The Flower Show held March 23rd to 31st finds the ITF with a redesigned booth this year.

The next Board meeting is expected to be held at the Flower Show in March.
