Guest speaker Patty Berg with our good friend Ralph Peterson.

The "Thinking Man" panel: Len Schnepf, Phil Bersin, Tim Miles, and Dave Meyer.

The Midwest Association wishes to express its appreciation to John Jackman and the Medinah Country Club.

Thanks to the work of co-chairmen Mike Bavier and Paul Voykin, our association has again presented a fine turf conference. Topics ranged from lowly drainage to lofty irrigation. It was nice to see a panel on the "Thinking Superintendent".

The education committee wishes to thank all the speakers for their fine efforts and to all others who made the program possible. Anyone missing this year's clinic would be well advised to put these two days on his "must" list for next year.

Our Fungicide Experts Marv Gruening, Art Benson, Dick Lamkey and Julius Albaugh.
