

MIDWEST TURF FIELD DAY, MONDAY, SEPT. 27

Set aside Monday, September 27, for our Midwest Turf Field Day. A comprehensive program on growth regulators, varietal performance, weed control, thatch management will be shown in the morning at the Agronomy Farm. After lunch rootzone construction, irrigation systems, and athletic field care will be stressed. Usually some 200 attend Field Day. Those wishing to see the turf plots are welcome at any time. Please call to make sure someone can be available to make your visit efficient.

America's foremost sports turf fertilizer . . .

MILORGANITE

*Builds
stronger
healthier
turf*

MILORGANITE and ECOLOGY

Unlike ANY synthetic fertilizer, the Milorganite concept is a major anti-pollution factor. Recycling is the key.

For further information write:
Milorganite and Ecology

Milwaukee, Wisconsin 53201

For more than 40 years, Milorganite has been used by golf courses, athletic fields, parks, cemeteries, and home lawns to produce and maintain outstanding turf.

- Milorganite scores better than chemical fertilizers in experiment station tests.
- Milorganite is the best long-lasting fertilizer.
- Milorganite cannot burn, and is easy to apply because, unlike chemical fertilizers, Milorganite's bulk assures proper coverage.
- Milorganite is granular and dust free.
- Milorganite-fed turf needs less water and holds its color longer.

MILORGANITE

Golf courses use more MILORGANITE than any other fertilizer
