**Warren's® A-20  
Kentucky Bluegrass  
SOD and PLUGS**

for Tees, Fairways and Collars

Here is the Bluegrass that gives you upright growth for a better lay of the ball, takes short mowing, is disease resistant, recovers faster from divot injury and stays green longer.

**FROM EDUCATION COMMITTEE  
MIDWEST ASSOCIATION**

After reviewing the Fall Clinic questionnaires returned, it was the committee's opinion that an explanation of the Midwest Turf Clinic should be given to the general membership. The Turf Clinics were set up with definite goals and objectives in mind from their conception.

It was felt that the superintendent should be the one to do most of the participating in the presentation of various topics. A goal of 75% superintendents and 25% professional was set. This goal has been achieved at many of the Turf Clinics. Granted, the speakers may not be the most professional, but how does one learn if it is not by doing.

It was further felt that topics should be given out early in the year so that experimentation, testing and professional preparation could be carried out. This has not been accomplished to the extent it probably should be. We will strive to obtain this objective in the upcoming Turf Clinic.

The committee agrees after sitting through the past winter's conference that it is refreshing to look forward to the Midwest Turf Clinic, which is probably one of the most practical of any they attend on their conference tour.

We appreciate the return of the few questionnaires we received and Thanks.
