**Environmental Pesticide Control Act** Passed the House by a 288 to 91 vote. Activity now shifts to the Senate. An amendment adopted by the House would allow state to restrict either general use pesticides or restricted use pesticides more drastically than the Environmental Protection Agency. Originally the House committee version would have prevented states from exceeding Federal restrictions on general use materials. Uniform labelling is still a part of the House approved package. The Senate committee on Agriculture and Forestry is expected to conduct hearings shortly on the bill.
