

PRECAUTIONS FOR USE OF PESTICIDE

STOP! READ THE LABEL

1. Use only material from a reliable source.
2. **Read directions carefully and observe them.**
3. Observe STRICTLY any warnings or precautions on labels. GARDENERS AND SPRAY APPLICATORS WHO HAVE NOT HAD SPECIFIC TRAINING IN THE USE OF THE ORGANIC PHOSPHATES SHOULD AVOID THEIR USE.
4. Store in a place away from children and pets and only in ORIGINAL CONTAINERS.
5. **Thoroughness of application and timing** are fully as important as the proper choice of materials and equipment.
6. Do not apply Dormant sprays when temperature is below 40°F. or when freezing is likely to occur before the spray has dried.
7. The following plants are sensitive to oil: beech; birch; black walnut; butternut; hickory; Russian olive; most maples; and such evergreens as Douglas fir, spruces, yews, hemlock, magnolias and basswoods.
8. Most sprays and some dusts should not be applied when the temperature is 85° F. or above.
9. Avoid heavy runoff unless drenching is indicated.
10. If directions indicate the addition of a "spreader" to your spray material, use one that is recommended by the manufacturer of the pesticide being applied.

From the world's largest grower of fine sod . . .

Warren's® A-20

KENTUCKY BLUEGRASS
Sod and Sod Plugs

The finest grass
available for
TEES - FAIRWAYS - COLLARS

- Rated highest in disease resistance
- Upright growth
- Takes short mowing
- Fast recovery from injury
- Greens up earlier — stays green longer
