

PENNCROSS

BENT SOD

TORONTO C-15

BENT SOD OR STOLONS

- ★ Pure To Strain
- ★ Maintained at 1/4" mowing height with "Greens King"
- ★ Grown on Sandy Loam Soil
- ★ Toronto C-15 Strain resistant to leafspot.

— BLUEGRASS SOD —

- Adelphi
- Merion
- XL-100 Blend
- KY-33 Blend

H & E Sod Nursery, Inc.

3900 West 167th Street
Markham, Illinois 60426

WATERING AND MOWING PRACTICES ARE RELATED

As summarized by Dr. James Watson,
Director of Agronomy, Toro Mfg. Co.

Watering practices are related to clipping height and frequency because of the influence of clipping on root development.

Mowing is not a simple operation to be regarded merely as a means of removing excess growth. Mowing is a management practice essential to a satisfactory playing surface. Mowing practices are related to the species and strain of turfgrass being grown. The inherent characteristics of the plant determine the height to which it may be cut. Mowing is the most time consuming of all management practices and has far reaching affects on the longevity of any turfgrass area.

To use water properly requires an understanding of the fundamental role water plays in plant growth; of the effects climate and weather have on growth rates; how they influence water use rates and choice of grass. Good watering practices demand a knowledge of the basic physical and chemical soil properties, how they effect water absorption, storage and drainage as well as the frequency, rate and manner in which water must be applied.

Futher, proper use of water means correlating such basic information with the requirements for play, for mowing and other management practices and programming a watering schedule to fit the existing irrigation facilities, so as to make the most efficient use of them and the available labor force.

MILLER SPRINKLING SYSTEMS

"Midwest's Leading Irrigation Contractor"

Since 1925

Complete design, installation,
guarantee and service

1738 Armitage Court
Addison, Illinois 60101

312 - 495-3222

Mitts & Merrill Brush Chipper designed for Golf Course use. Uses P.T.O. Power and 3 pt. Hitch for economical price and operation.
