NATIONAL SAFETY COUNCIL points out that there are 10 items which no OSHA officer overlooks when he checks out a business. They are: 1. electrical wiring, loose connections, switch plates and covers; 2. fan guards; 3. floor conditions and poor housekeeping; 4. aisle markings and clear aisles; 5. electrical panels, which must be kept closed; 6. grounding of electrical systems; 7. limits of 30 pounds air pressure for cleaning purposes; 8. fire extinguishers; 9. exit signs and means of egress; 10. proper maintenance of OSHA records. If you are not in compliance with all of these, consider it an automatic violation subject to fine.
