

Banvel[®] + 2,4-D = Turf (minus 29 of the toughest kinds of weeds)

All it takes is one application, and your weed control job is done for the season. And so are 29 of the hardest-to-kill varieties of broadleaves.

BANVEL plus 2, 4-D is a versatile combination you use anytime from early spring to late fall. It kills by penetrating both leaves and roots, so weeds can't come back.

Mixes quickly, stores well. Use it according to directions, and your weed worries are over for the year.

Ask your Velsicol distributor about BANVEL 4S, too. Or write Velsicol Chemical Corporation, 341 E. Ohio Street, Chicago, IL 60611.

Before using any pesticide, read the label.
