If you are concerned about a certain bill that is in Congress and want to keep track of it, the Senate "cloakroom" number is (202) 224-8541. This number provides a regularly updated recorded message which tells what the Senate is doing on any particular day you call. Another number - (202) 225-8541 - gets you a real, live person who can tell you the status of any particular piece of pending legislation. Remember you must have the Senate or House of Representatives **bill number**.

## A GREENSKEEPERS MESSAGE

By Dennis Wilson, Supt.  
Sunset Ridge Country Club

After reading April's "President's Message" I decided it was time for me to jot down a few thoughts of my own.

Being of Dutch, Irish, English and Italian ancestry I will never understand how a suit and tie makes me a professional. I do agree we should all wear suit and tie to our meetings out of respect to our host superintendent and his Club.

Now, before I go off half-cocked about this subject, I would like to quote my uncle, Domenic Grotti, when he said to me "you don't have to act like the Boss, **just be the Boss**". I think this also applies here in that we don't have to try to act like professionals, just be professional and the rest will come.

Art Benson, Sr. had a triple by-pass heart operation about the middle of March. He is up and walking about 2 miles every day now and the doctor promises him he will soon be able to play golf. That is great news to his many friends here in Illinois. Drop Art a note to Traylor Village #3 Palm Dr. Winter Garden, FL 32787.

Albie Staudt was given a birthday present by his club, a trip to the "Masters"! Maybe we all should mention our birthdays to our clubs.
