Turf Maintenance Equipment Safety Education Program

The Toro Company and the St. Paul Fire and Marine Insurance Company have developed a comprehensive operator safety education program, specifically designed for golf course employees.

The program addresses 28 different safety areas related to commercial mowing equipment. Covered are safety procedures to follow before and during operation, as well as when working around operating equipment. The information is delivered in a simple-language, multiple-format style which incorporates a video tape, audio tape, written manual and follow-up tests.

The program includes a:

- Video Tape
- Audio Tape
- Book
- Printed Testing Materials

Containing information on:

- Proper safety procedures.
- General product familiarization.
- Pre-operational checks.
- Correct operating instructions.
- How-to cutting techniques.
- Product care and cleaning

The information is provided in both English and Spanish language versions. Audio and video tapes have both languages on the same tape, first in English, followed by Spanish. Tape length varies from approximately 11 minutes for the audio tape to 30 minutes for the video tape.
