

(On Course continued)

associated with the newsletter cover artwork and set up, therefore we do not expect to see anything new and exciting for several months. The Editorial Committee will be busy, as it is no small undertaking.

The golfing season may be nearing more relaxed times, but as you can see, your Board of Directors will be working overtime. Managing the MAGCS is somewhat like managing our golf courses in that even though we try and please everyone, it is not always possible. If we can please the majority, we have done our job. At work as well as with the MAGCS, the Board of Directors enjoys hearing compliments from our members for the time and effort devoted to try and please the membership. All compliments however, are soon forgotten when we hear harsh or unkind words from an unhappy member. It is usually not so much what is said, but **how** it is said. We do, however, take constructive thoughts very seriously. There have been many changes and advancements within our association over the past 10 years. These accomplishments have not come without some resistance and vocal disagreement from a few individuals, but the MAGCS continues to progress in spite of their differences of opinion. The current Board of Directors is certain that the direction and decisions made this year are for the ultimate good of our members, our association, and our profession.

Some have undoubtedly disagreed and that is healthy for everyone concerned. We have heard and evaluated both the compliments and complaints thrown in our direction. We realize that we cannot please everyone, but unlike some of the comments to date, if one has a complaint, think about how it feels on the receiving end of the comment. All I ask is that it be done with class and please, be professional about it. Thank You.

Joel Purpur, President, MAGCS

Milorganite Initiates Turfgrass Research Donation Program

\$10 per ton to Turf Manager's Choice of Turfgrass Organizations

Milwaukee — Turf managers can help support turfgrass research when they buy natural organic Milorganite fertilizer this fall, according to Alan Nees, Director Marketing. For each ton of 50 lb. bags or new 1,000 lb. mini-bulk bags purchased and delivered between August 1-November 30, 1995, Milorganite will donate \$10 to the turf manager's favorite turfgrass research organization.

"Milorganite and its distributors have been long-time supporters of turfgrass research at the national level through our involvement with the O.J. Noer Turfgrass Research Foundation", Nees says. "We are excited about this program because it enables Milorganite customers to support turfgrass research at the local level as well."

Contact Milorganite at 1-800-287-9645 or your local Milorganite Distributor for more details.
