

Where Should I Go to College?

A new GCSAA publication, "Guide to Colleges," can help students and their parents answer this question. Available in June, the guide offers information on 2- and 4-year turf-related educational programs.

The guide is divided into four sections:

- Section 1 details the golf course superintendent's profession and relationship to the golf industry.
- Section 2 describes a sample curriculum outline for both 2- and 4-year programs.
- Section 3 is organized alphabetically by schools and offers an in-depth profile of each

institution. Each profile includes the institution's name, geographical location by city and state, degrees offered, brief description and "fast facts" about the undergraduate program, special features of the program, educational facilities and contact information.

- Section 4 is a geographical listing of all national and international turf-related programs that GCSAA has on file. The listing

includes 1-year certificate programs, correspondence courses and short courses.

To select the program that best fits their needs, students and parents also find helpful the information on faculty, special research and laboratory facilities, the types of degrees conferred, the number of hours required for a degree, internships required, career placement assistance, tuition costs and much more.

The "Guide to Colleges" will be distributed free to all participating 2- and 4-year institutions of higher education. It will also be available for \$30 through the GCSAA bookstore. ■
