

1999 Hospitality Room, Orlando, Florida

Brian Bossert

The hospitality room was a huge success again this year. The very generous contributions by a large contingent of vendors have allowed this event to develop into one of the

highlights of our annual conference. All in attendance were treated to two great evenings of food, drink and fellowship; the room has never been so well attended. My apologies for the contributor plaques being absent on the first night; ATA decided

to route the box with the plaques through San Francisco. In case you missed the signage, the following companies helped to make the evenings such wonderful occasions:

(L to R) John Gurke, Bob Maibusch, Fred Opperman

(L to R) Jim McNair, Harry Lovero

(L to R) "Twins"
Tracy Murphy, Kevin DeRoo

(L to R) Lynn Wesson, Greg Thalman, Fred Behnke
