

# MIDWEST EDUCATION RECAP

Brad Anderson, CGCS *Midlane Country Club*

## April

Lee Miller, the Chicago District Golf Association Turf Program Coordinator, spoke to us at Heritage Bluffs about soil temperature and heating degree day data which he has been gathering in the Chicago area for the last four years. Lee is taking the data and developing reliable prediction models for scheduling our programs and

applications to coincide more closely with the actual outbreak and life cycle of insect, weed, and disease pests.

In our next issue of *On Course* Lee Miller will provide an article on this information.
