THURICIDE

Safe for all forms
of life except the target insect

THURICIDE is a biological insecticide. It paralyzes the digestive tract of certain species of harmful leaf eating insects. They soon stop feeding and die within a short time.

It is safe for all other forms of life including beneficial insects such as insect predators and bees, man, mammals, birds and fish.

You'll like the way THURICIDE mixes and sprays. It's miscible with water, mixes well with stickers, fungicides and other pesticides and can be used in all types of spray equipment.

Learn the full THURICIDE story—write or call 312-757-5800. Out of state call 800-323-5072.
