

Here's the new, 1974 Greens King. It's dynamite.

We're pretty excited about showing off the all new, redesigned and faster traveling Greens King. From Jacobsen.

There are so many new features you really ought to have a test ride.

You'll notice how the mowing units can be operated singly, or in any combination, with fingertip controls.

The new, spunky transmission gives you faster transport between greens. And the husky 14HP engine runs

smoother and more quietly than ever due to the new, enlarged muffler.

It steers with better control and gives you tighter turning. There are a lot of other neat features that should knock your eyes out. Including the sleek new, ground hugging design.

Of course it can still cut through 18 greens in about four hours. So it's still the champ.

While you're at it, ask your

Jacobsen Distributor to show you the new Trap King. It's the best trap rake in the business simply because its unique features let you rake faster and better than any other trap rake. And that's not a brag. It's a promise.

Your Jacobsen Distributor will be happy to give you a demonstration. He has a complete line of turf care products as good as the Greens King and Trap King.

Their're all dynamite.
