

The best new way to hit the fairways!

Hit the fairways this fall with an application of this great new USS Vertagreen fertilizer and you're on your way to fewer turf problems next spring. This quality product is ideal for fall fairway fertilization because it has a high potash analysis...and that means less winter kill.

Potash works to toughen the grass, giving the turf healthy and hardy leaves that can better withstand the cold winter weather. Potash also helps your fairways

resist disease problems such as dollar spot and brown spot. A soil test in the late summer or early fall will determine if your fairways lack this vital nutrient. And if they do, USS Vertagreen Fall Fairway Fertilizer is the answer because it's formulated with primary nutrients specifically for your area.

See your USS Vertagreen distributor and he'll show you how this great new product can winterize your fairways this fall. Next spring you'll be glad you did.
