THAT ONE BIG CHANCE

He spent his days at meager tasks
 Explaining all the while
 That soon he'd get that "one big chance"
 And then he'd live in style.

But—while he sought that "one big chance",
 He somehow failed to see
 The hundred "little chances" that
 Each day greet you and me.

He still awaits that "one big chance".
 He'll never learn, I guess,
 That "little chances" are the rungs
 On ladders of success.

Dwayne Laws

HOW'S YOUR TURF IQ? *ANSWERS*

1. The factors that influence turfgrass disease are: Type of grass, Fertility practices, Soil types, Thatch, Pest control, Mowing practices, Weather conditions, Watering practices, Air circulation, Presence of innoculum, Length of time the turf remains wet.
2. Infections to turfgrass are caused by: Virus, Bacteria, Fungi, and Nematodes.
3. Some non-infectious diseases are: Draught, Winter injury, Fertilizer injury, Scalping, Shade, Buried debris and Dog or animal injury and chemical injury. There are many more.
4. The "smoke ring" should tell you it's Rhizoctonia solani commonly known as Big Brown Patch.

WIPE OUT WEEDS

with **Banvel® 4S** & **Banvel®+2, 4D**

HERBICIDES

The broadleaf weed 'specialists' designed for professional turf programs.

Here's why BANVEL® herbicides are the professionals' choice for weed control:

- Used as directed Banvel will not harm trees, ornamentals or turf—it just eliminates weeds.
- No season restrictions. Lay down Banvel from early spring to late fall—all through the growing season.
- Rain will not affect Banvel. It keeps on working because it translocates—penetrates leaves and is absorbed through roots to attack every part of the weed.
- No special spraying equipment necessary. It is easy to clean out of equipment after use.
- Mixes readily with hard or soft water.
- Easily stored through winter months without losing potency.

GOLF COURSE SUPERINTENDENTS TO HONOR WILLIAMS

Robert M. Williams, Lake Forest, Illinois, has been chosen to receive the 1977 Distinguished Service Award of the Golf Course Superintendents Association of America (GCSAA). The highest award bestowed by GCSAA recognizes Williams' many years of service and significant contributions to the organization and the profession of golf course management. He becomes only the 28th person in GCSAA's 50-year history to receive this special award.

Letters supporting Williams' nomination for the award cited his professional practice and experience in the field covering a period of 50 years. He has been especially active as an officer of GCSAA and of the Midwest, Central Ohio and Chicagoland Golf Course Superintendents Associations and the Illinois Turfgrass Foundation. Now golf course superintendent of the Bob O'Link Golf Club, Highland Park, Illinois, Williams has trained more than 60 young men in golf course management. He is currently serving on a special GCSAA Organizational Study Committee to explore the philosophical and organizational concepts of the Association.

Williams will be honored by some 5,000 colleagues during the opening ceremonies of GCSAA's 48th International Turfgrass Conference and Show February 6-11 in Portland, Oregon. He will receive a commemorative plaque, and in addition his name will be added to a permanent plaque housed at GCSAA Headquarters, Lawrence, Kansas.

A well-known speaker, Williams has appeared at more than 100 turfgrass conferences and has contributed as many articles to turf publications. He is the originator of several bulletins, guides and information sheets, particularly on budgeting, used by superintendents throughout the country.

Williams joined GCSAA in 1942 and is a member of the Quarter Century Club. He served as a director in 1953 and 1954, as vice president in 1957 and as president in 1958. In addition, he was the chairman of the Education and Election Committees.

Superintendent of the Bob O'Link Golf Club since 1958, Williams was previously superintendent of the Beverly Country Club, Chicago.

From Dave Ratto, DuPont Rep.

A man bought a new gadget--unassembled, of course--and after reading and rereading the instructions couldn't figure out how it went together. Finally he sought the help of an old handyman who was working in the back yard.

The old fellow picked up the pieces, studied them then began assembling the gadget. In a short time he had it all put together. "That's amazing", said the man. "And you did it without even looking at the instructions!"

"Fact is", said the old man, "I can't read, and when a fellow can't read he's got to think."

USS Vertagreen... For the best, see the best!

For professional turf products you just can't beat the Vertagreen lineup. And this complete array didn't just happen. It's the result of many years of experience, testing and proven use—designed and formulated to meet every need and contingency.

USS Vertagreen products contain those extra pluses that separate them from ordinary turf fertilizers—like urea-formaldehyde

for sustained, long-term nitrogen release. There's potassium sulfate to provide needed sulfur for lush growth and a dark healthy color. And iron is available in chelated and fritted form. Add a complete guarantee of secondary and micro-nutrients and you have turf products that are second to none.

And backing this line of Vertagreen products are the best turf

teams in the business—your local Vertagreen distributor and a Vertagreen turf specialist. The two work together to help plan your trailer-made turf program and keep it running smoothly. And that makes it easy for you because when you want the best you just have to see the best—and that's your local Vertagreen distributor.
