

What do we mean by  
Turf Management Vehicle . . . ?

## Hahn Tournament II Triplex

When you have finished mowing your greens . . . In less than a minute, you can change the Greens Cutting heads for the Verti-Cut Units to remove thatch and grain . . . Or attach the Vibra-Spiker heads and achieve deep spiking penetration without excessive weight, and eliminate the back-breaking ordeal of "summer-aerification" . . . Or attach the heavy-duty Utility Units which are ideal for approach and tee mowing, or they can be adjusted down for greensmowing after top dressing.

**Have you really had a demonstration of the Hahn?

### NATIONAL 84 Inch Triplex Mower

A functionally designed commercial mower. It is built to operate continuously eight hours a day right through the season. Servicing is simple. The engine comes off with four bolts; the tires, the clutches and all other adjustments are readily accessible. It's a natural for hill work with the widest track and lowest center of gravity of any of the Triplex mowers. The unit is geared so that the engine will operate at one half to three quarters throttle to give long engine life.

**No frills.  
Just performance and durability.**
