

Davis IS YOUR AUTHORIZED
CHICAGOLAND SALES AND SERVICE SOURCE FOR

GIANT-VAC

GIANT-VAC offers a complete line of machines and attachments to fit all needs. "Wherever there is debris, there is a need for a Giant-Vac and Giant-Vac offers a model for all needs". Highly efficient, ruggedly built, and economically priced - Giant-Vac, the pioneer and leader in its field, offers you the ideal unit to solve your cleaning problems. Designed and produced by the same company manufacturing precision missile and jet aircraft parts.

Truck Loader - MODEL 1001-C and 1401-C

These models are ideal for loading leaves or other debris into a truck. They feature either a 10 or 14 H.P. engine. A 10 inch pick up hose is standard and other accessories are offered.

MODEL 888-898 — 1010 & 1495 Trail Vacs

GIANT TRAIL VACS feature 8, 10 and 14 H.P. engines. They are designed to be towed behind a small tractor or riding mower. They incorporate a large 48 cubic foot hopper which is self dumping and featuring a spring loaded door for ease in operation. They can be equipped with a nose cone as shown on the left. Attachments to connect to the mower deck are also offered as illustrated on the right. With this attachment, grass clippings and other debris are pulverized by the mower. The strong vacuum then compresses them in the large hopper.
