The Ex Stands For Excellence

## Why the EX STANDS FOR EXCELLENCE in professional turf care.

- Par Ex is the only professional fertilizer line containing IBDU, undisputedly the finest slow release Nitrogen source in the world.
- IBDU gives you the highest level of WIN, or Water Insoluble Nitrogen.
- IBDU delivers all of its Nitrogen in a single growing season.
- The Nitrogen release rate of IBDU is generally affected by only two factors: soil moisture and granule size.
- Slower release makes Par Ex products perfect for your Fall Fertilization program.
- Fewer applications are required, labor costs are cut.
- The salt index of IBDU is the lowest of all commonly used fertilizer materials.
- IBDU fights nitrate pollution because very little Nitrogen is lost through leaching or volatilization.
- Choose from over 60 different product formulations.

The sixth annual OSU Golf Course Maintenance Short Course will be conducted January 13 through 17, 1992, at the Holiday Inn on the Lane in Columbus, Ohio. This short course will provide general and basic information on golf-turfgrass maintenance. Emphasis will be placed on principles of agronomy, soils, entomology, and plant pathology. The short course is designed for all golf course personnel.

The registration fee is \$350.00. The deadline to register is December 18, 1991 or until 50 applications are received. Lodging facilities are available at the Holiday Inn or other hotels in the area. For more information, please contact Sue White at 614/292-7457 for course content, or the Department of Conferences and Institutes at 614/292-4230 for course registration.
