## The Toughest Thing to Emerge Since Crabgrass

- Season-long control with a single application is attainable without concerns for turf grass safety due to excessive herbicide rates in overlap areas
- Excellent safety around emerged ornamentals
- Lower environmental loading: Much less active used per acre than any other product
- No staining or obnoxious odors
- No watering needed for pre-emergence efficacy

*For more information call Bret Rush, Technical Representative, The Andersons 708-654-3142*
