# MILLCREEK TOP DRESSERS

**An Easy Way to Dispose  
of Grass Clippings...  
And Save Money**

In one easy step, eliminate costly dumping fees and improve the rough by spreading grass clippings still enriched with precious fertilizer. Millcreek's Top Dressers are equipped with an adjustable undershot poly brush designed to evenly distribute top dressing from three to ten feet wide.

The spreading uses of these Top Dressers are endless:

- Fertilizer
- Sand
- Top Dressing
- Grass Clippings
- Seed
- Compost

Models are available with PTO or Engine Drive.

## WHY YOU NEED PROTECTION FOR YOUR IRRIGATION CONTROL SYSTEM

Devastating lightning strikes and catastrophic power surges and spikes are all too common occurrences on today's golf courses. The sensitive nature of today's critical computer based systems require special coordinated

protection to prevent catastrophic damage to expensive irrigation control equipment.

**The D & B Power Protection Package** is designed specifically for golf course irrigation systems to eliminate the problem. For a free brochure contact:

Midwest Golf Development, Inc. is pleased to announce a new service to its clients. With the purchase of a WK DAHMS - Stone Slinger from Canada, we now have the ability to rapidly and efficiently spread sand in golf course bunkers and waste areas.

The truck is equipped with high flotation tires so there is minimal compaction and no damage to sensitive turf. The stone slinger has a conveyor delivery system under its hopper. Materials move back to a 16-foot articulating boom. This gives it the ability to place materials in a 300 degree arc around the truck up to 30 feet from the rear of the truck. One operator can fill and spread sand in your bunkers in a very short time. We can move up to 225 tons of sand per day.

If you are adding sand to existing bunkers or building new bunkers, and would like to place the sand rapidly with no damage to the turf on your golf course and minimal labor, give us a call. We would be happy to work with you.
