What Value do Trees add to your Course?

In most cases, the value is extraordinary as trees are part of the field of play. Let our team assist in protecting and enhancing the trees that are so much a part of your course.

With more than 100 professionally trained arborists located in 10 Chicagoland offices, we are able to respond quickly to the challenges of golf course tree care.

President's Message

(continued from page 2)

concerned. I cannot thank you enough, George, other than helping you out in the years to come. Drop George a line or give him a call to let him know how he is doing.

Every time you turn on an awards show, all of the winners make sure to thank their families. I cannot forget mine. My wife Sue and my kids Ben and Emily are truly my inspiration. They put up with all of my time away from home and are always there for me. If you have a family that supports you like mine does, you are blessed! I LOVE YOU GUYS!

Recently, one of my members, a fine pediatrician, was honored for his forty-two years of service to the Fox Valley area. I talked to him on the course soon after that event. I told him he deserved all of the honors he was being given. He told me, "I

went to school, I learned a profession and I did my job!" I feel that I have served the association, learned the ins and outs of the MAGCS, and I hope that I have done my job! Thanks a million (before taxes) to all!

scenes. President Ed Braunsky, Vice President Kevin Czerkies, and Secretary/Treasurer Bob Maibusch, as well as the entire Board of Directors have performed admirably. They are just as busy with their work activities and family lives as everyone else is, but they still find the time to unselfishly serve our association. Thank you so much, guys!

The Midwest is always looking for and depends upon interested and dedicated members to help serve our fine organization. Get involved. Serve on a committee. Run for the board. Give a little something back to the group that benefits you in so many ways. You'll be glad you did. ■

TURF PRODUCTS

Now Daconil Ultrex® Fungicide Is More Cost-Effective Than Ever.

Tests show spray-dry Daconil Ultrex® fungicide, with its new, enhanced Super Weather Stik™ formulation, delivers exceptional results at application rates 20% lower than before*. That means you can now use Daconil Ultrex more often for better disease control without a significant increase in overall cost. And if you really want to open your eyes, take the Daconil

Ultrex Challenge, and get enough free product to try our new seven day, low rate spraying program on one green or fairway all season long. Ask your distributor for all the details. It could give you better disease control than you've ever had before. ISK Biosciences Corporation, Turf & Specialty Products, 1523 Johnson Ferry Rd., Suite 250, Marietta, GA 30062.

ISK BIOSCIENCES™

Always follow label directions carefully when using turf and ornamentals plant protection products. *For best results, we recommend using 20% lower application rates on a 7-10 day schedule. Section 12(a)(2)(G) of FIFRA provides that it is unlawful for any person "to use any registered pesticide in a manner inconsistent with its labeling"; quoted language is defined in section 2(ee) of FIFRA and expressly excludes the act of "applying a pesticide at any dosage, concentration, or frequency less than that specified on the labeling unless the labeling specifically prohibits deviation from the specified dosage, concentration, or frequency." Thus, in the absence of specific label prohibitions, it is not unlawful under section 12(a)(2)(G) to use a registered pesticide at a dosage, concentration, or frequency less than that specified on the labeling of the pesticide.
