

Soon 300,000 greens

will have the chance to be cut like never before.

The new 2500 Tri-Plex Greens Mower from John Deere.

Soon, greens everywhere will experience a tri-plex mower that not only delivers a superb straight cut but also excels at the cleanup cut. That's the essence of the new John Deere 2500 – a quality of cut that's second to none.

The 2500's John Deere-designed and manufactured cutting units feature a new bedknife-to-reel

design. The patented offset-cutting-unit design provides the operator with a clear view of the center cutting unit and helps reduce "tri-plex ring."

Operators have never had it so good. The operator station on the 2500 has convenient fingertip controls for the throttle, reel drive, and cutting unit lift/lower.

The 2500 is also extremely service

friendly. Cutting units can be detached in seconds, with adjustments designed with the technician in mind. And daily service points can be checked from one side of the machine.

Let your greens experience the unique cutting prowess of the John Deere 2500. Call us for a demonstration soon. www.deere.com
