# Fun at the Ballpark

The August 19 MAGCS Family Outing at the Kane County Cougars game was a smashing success. A full house attended, and big fun was had by all. For those who could not attend, make plans to do so next year—the Cougars really do put on a great show. Kids and kids-at-heart were treated to food, drink, games, and a professional baseball game to boot. Arrangements Committee chairman **Kevin DeRoo** of Bartlett Hills Golf Course has already booked the left field picnic area for next season—don't miss it!

*Cheryl (L) and Kevin DeRoo of Bartlett Hills Golf Course get a squeeze from a big fluffy animal in a Cougars uniform.*

*MAGCS executive secretary **George Minnis** (L) pretending to be amused by **Ed Braunsky**, CGCS of Geneva Golf Club.*

*Our generous sponsors **Bill Murray** (L) of Nels J. Johnson Tree Experts and **Dave Armentrout** of Chicago Turf & Irrigation, Inc.*

*On Course and the MAGCS thank our October advertisers.*

**What do a superintendents think  
about *RapidTurf* ?**

"We've used RediPlay/RapidTurf on four different courses. Sodding 19 greens over a 2½ week period. Each of these greens was playable inside of two weeks. RediPlay/RapidTurf does not float like washed sod. And since there's no damage in cutting, it roots faster after installation. I highly recommend it!"

Tom Jauch

Vice-President GolfVision LLC

"It roots faster than any grass I've seen before. In fact, it began rooting within two days of installation. We opened in half the normal time. It's great stuff!"

Lawrence Flament,  
Stonewall Orchard Golf Club

# Only With A Diamond

- **Configuration** — Short wheel base tricycle with rear engine placement for ease of service. All wheels are powered unless in 2 wheel drive. Front wheel steering.
- **Hydraulics** — Variable displacement piston pump with integral auxiliary charge pump for hydraulic PTO. Stainless steel tubes and heavy duty double braided hoses are used for routing hydraulic fluid. The front traction hoses are additionally covered by a stainless steel braided jacket. An oil cooler is provided in the charge pump circuit.
- **Steering** — Front wheel steering with a single sided fork for ease of wheel removal and replacement. Steering is by enclosed spur gears with 7:1 ratio for light and positive control. This system is supported by 8 roller and ball bearings for smooth trouble free operation.
- **Reliability** — Every product is backed by a two year bumper-to-bumper warranty. Diamond's exclusive Five-Star Service Program is designed to keep you up and running.
